KEITH'S

This is Our Twenty-Fitth Anniversary Year

Report of Progress and Statement of Policy

As we enter the year which marks the Twenty-fifth Anniversary of Keith's as a Manchester institution and which we have planned to make a record year in every respect, it seems entirely fitting that we should place before our customers report of our position at this time and a brief statement of our policy and plans for the future.

Turning Back the Hands of Time

In 1899 this firm was founded on a vision of service as the means to success, the idea of a higher standard of success than financial remuseration, in the good will of the public and the loyal support of our employees. We have taken as our inspiration the best interests of our people, and have summoned the courage to blaze a trail into many untried paths of merchandising. Ours has been the task of the pathfinder. Very early we adopted a liberal credit system of selling in order to render a broader service to the public, which system we have carried to degree of perfection and through which thousands of homes in Manchester and vicinity have benefited. Long ago we put into effect a plan for division of profits with our employees and this, too, has been very satisfactorily reflected in the

More recently we took a drastic step in the direction of economical selling when we abandoned our central location on Main Street for lack room and moved out of the high rent district. We acted on our conviction that business would follow where the best values could be found an that real values were not consistent with heavy running expenses. Only last summer we adopted the most revolutionary program of all in our Employees' Vacation Plan whereby the store gether for two whole weeks in order that all employees might have a vacation with full pay. By such measures as these it has been our continued policy to promote the best interests of our employees and the public. We claim no ex

clusive title to the reputation of fair dealing. We recognize that Manchester is peculiarly fortunate in the quality of its merchants right down the line. We are thankful that we chose the business of Home Furnishings for our field. This has been to us as it should be, more than a commercial Home is the dearest spot on earth, and in the furnishing of homes we have not aimed at the accumulation of dollars only, but have regarded our mission as that of a public servant with a definite responsibility to the people we have served and upon whom we are dependant for our

exceeded our fondest expectations and has fulfilled our vision that "HE PROFITS MOST WHO SERVES BEST." To sell merchandise it is necessary to think straight and act straight without regard to the criticisms of neighbors and competitors. We are confident that we could not have delivered from our store last year merchandise to the value of a Quarter Million Dollars and have received payments on it to the amount of nearly Two Hundred Thousand Dollars were it not for the fact that we have attempted to apply the Golden Rule to our business and have given full measure of value and service for every dollar received.

The year 1923 in particular has broadcasted the name of Keith's to the four corners of the earth as the Golden Rule Merchants through our novel scheme of handling the vacation problem. Last July we published the announcement "THIS STORE WILL BE CLOSED AUGUST 13 TO 25 FOR EMPLOYEES' VACATION." There was a good deal of doubtful speculation as to the outcome of this move and we are sure you will be nterested in a report of its effect on our business. Probably no single event in Manchester ever attracted wider attention. It was published in all New York and Boston papers and copied by publications all over the country. A flood of letters and communications came in from every conceived

We are the third oldest firm on Main Street under same continuous management. We were the first mercantile firm in Manchester to incorporate.

We are the only firm in Manchester to thoroughly canvass the surrounding towns for business, and induce them to trade in Manchester. We are a firm who divided its profits over a reasonable surplus with its employees.

We are a firm that gave in 1923, 428 days' absence with full pay to its employees, at a cost of \$2,651. We are a firm that moved away from the high rent district, and adopted the slogan: "IT SURELY PAYS TO WALK A WAYS" and gave

We are a firm that if you don't know, you owe it to yourself to become acquainted with, it will be worth your while. When we moved, some of our friends said, "they're crazy." Were we? When we announced our vacation plans, some said, "They won't try that again." Will we? We'll say we will. Watch us this year,

And Now For 1924

We were fortified with impressive values during 1923 and we are our Twenty-fifth Anniversary Year and we mean to make it a big one all the way through. We are, of course, very favorably situated as compared to any other furniture house in this vicity owing to our arge volume of sales and the low costs that we have to meet in this ocation. Any added profits or economics effected this year by increased business will be reflected in our prices, in our terms of credit, and in the service we shall render.

January Is a Slow Month

The days and weeks that slip by while waiting for business to improve are costly. It is difficult and dangerous to exceed the speed limit to make up for lost time. Just now we are in high gear with our cut-out wide open for our JANUARY SALE. We are primed with a big stock of the kind of merchandise you want at a price you can afford to pay. TRADING NOW WILL MEAN BIG SAVINGS TO YOU, AND WILL KEEP OUR ORGANIZATION FROM EX-CESSIVE SPEED LATER ON. Yours for a Prosperous 1924
