# **Bedroom Suite**

The illustration shows the attractive lines and graceful curves, but you must examine it carefully yourself to appreciate the exquisite two-tone effect which comes from the skilled use of genuine walnut combined with other hard wood.

The bow-end bed gives a pleasing effect; an air of the unusual. The dresser, which is 48 inches wide, has a large genuine French plate glass mirror and dust proof bottom. The chifforobe has the happy combination of usefulness and beauty and although possessing ample space within, it is so designed as not to appear bulky from without.

The full vanity (such an indispensable part of my lady's boudoir equipment) has been designed with her requirements well in mind, and may be had at \$59.50. The long upright mirror and the two swinging side mirrors are both practical and attractive in design.

The bottom of the drawers of both the dresser and vanity are made of mahogany and the interiors of the drawers have been finished with great care.

And the price, only \$125.00, is possible because of the conditions under which we are able to operate our business. Here are the details:

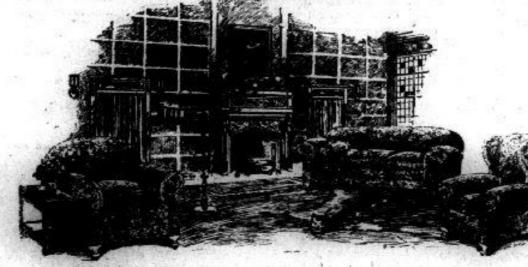

Our rent costs us 20 cents a square foot. Rents for similar lines of busines on the main business streets of Hartford cost from 65 cents to one dollar per square foot, and yet we are only one block from Main street.

2. We sell direct to the public at wholesale prices thereby doing a large volume of business at a small margin of profit per sale. YOU SAVE THE DEAL . We sell for cash only and thereby

eliminate the enormous cost of carry ing accounts, making collections, etc., which expense would have to be added to the selling price of our merchandise. 4. Being located next to the freight house our hauling cost is reduced to the

British athletes all over Britain have gone into training in the hope they will qualify for the Olympic

A kind of super-nursery has been opened at the White City, a disused pleasure ground on the outskirts of this city, where the budding athletes will be tried and elirainated in an effort to find the best.

They will undergo every conceivable kind of test at the hands of two of Britain's most famous past athletes, and the British Olympic Games Association declares it is hoping that among the many they will find some world beaters.
