The Sagunto plant which will be among the most modern in the world, was designed and constructed under the drawings, specifications and supervision of Frank C. Roberts and Company, prominent consulting engineers of Philadelphia. The plans call for the complete work sincluding coal dock, by-product coke ovens, blast furnaces, open hearth steel furnaces and rolling mills all for an ultimate capacity of 1200 tons per day of finished product. Practically all. of the plant is electrified and controlled with Westinghouse equip-

Sagunto is the ancient town of Saguntum, captured by Hannibal 219 B. C., and is ideally situated New portrait of Senator James ways made her mark on the receipt for the new plant, according to E. Watson of Indiana. Mr. Roberts. The iron ore lies in deposits that were worked by the Carthagenians and are jocated in Sierra Manera mountains, about 130 miles from Sagunto. The ore is transported to Sagunto over the Company's own railroad. From this point Spain exports vast quantities of ore to the United States and various countries of Europe. The Company operates its own fleet of

MRS. WILLIAM A. BROWN

50 ocean steamers. The vision of a modern American iron and steel works against the hack-ground of the ancient town of Sagunto with all its traditions and history arouses a realization of the progress of the human race. Mr. Roberts was also the American agent in the transaction and much credit is due to his expert counsel and design that America landed this business in the face of

keen European competition. Seta and Aznar, the holding company of the Cia Siderurgica del Mediterraneo, have been assured of the hearty support of the government and industrial organizations of Spain in developing the new

The shipment included a 5,000 paper because it is no good and horsepower motor which will be installed in a 48-inch blooming mill which is larger than any mill ever used in the United States, a 3,750 how to run a newspaper right, but horsepower motor for a 28-inch horsepower motor for a 28-inch structural mill; a three-unit mossilia and the structural mill; a three-unit mossilia and the states and should the states and should states and should the states and should down and looks sloppy. to sleep", said Admiral Cary T

Washington, District of Columbia, deprives the country of a most distinguished citizen, and is an event which causes universal and genuine sorrow. To many of us it brings the sense of a profound personal beenter academic life. In this chosen field he attained the highest rank as an educator, and has left his impress upon the intellectual thought of the country From the presidency of Princeton University he was called by his fellow citizens to be the chief executive o the State of New Jersey. The duties of this high o ice he so conducted as to win the confidence of the neo-

ale of the United States, who twice elected him to the theef magistracy of the republic. As President of th 'nited States he was moved by an earnest desire to promote the best interests of the country as he con ives and his sincerity of purpose cannot be questioned. He led the nation through the terriffic struggle of the orld War with a lofty idealism which never failed

im. He gave atterance to the aspiration of humanity earth and made America a new and enlarged influence In testimony of the respect in which his memor held by the government and the people of the United that suitable military and naval honors under orders of the secretary of war and of the secretary of the navy be rendered on the day of the funeral.

Done at the City of Washington this third day o abruary, in the year of our Lord one thousand nine undred and twenty-four, and of the independence of the United States of America the one hundred and CALVIN COOLIDGE. By the President.

Charles Evans Hughes.
