> Mr. Olsen's argument was to the effect that the Rec building had been given out to all the local teams at the beginning of the season on the 60-40 basis and added that the Rec didn't get over five dollars from both the Red Men and the Crescents as a total for all the games played under this basis. Later the rent of \$25 was asked for the hall and only one game was played under these terms. The Red Men hired the hall for one game and failed to clear expenses. The Crescants claim that on account of the fact that they could not get the hall on a suitable night, they went to the Kacey Hall for further games, instead of hiring the Rec hall any more. Mr. Olsen stated that he is going to change his fee again to the former method, now that the games are drawing well. The meeting was adjourned until tomorrow night, pending a conference between Mr. Olson and the Rec committee to see if a better

day and night nurse.

What would you think of a stor that used 115,000 loaves of bread and bakery goods in a year? Or a store which used 20,000 pounds of coffee and one hundred tons of sugar, and one hundred tons of flour in twelve months? This Hale's Self Serve Grocery does and still other items are of interest. There are 48,000 pounds of butter sold at this store in a year; half a million eggs; 6,000 pounds of salt pork, 7,000 pounds of cheese. These quantity figures are made possible b the low prices prevailing at the Self Serve Store and demonstrate conclusively that "it pays to wait n yourself." Starting tomorrow the Self Serve Grocery will celebrate its fourth anniversary with special prices. In their ad, on page eight of The Daily News today will be found many unmatchable barcains. We would advise that you get to the store early tomorrow norning and get your share of hese wonderful offerings. The prices quoted are for tomorrow-
