REFRIGERATORS

It is Not too Early to Buy a Refrigerator

Especially if you can buy avantageously. Our Club Plan enables you to do this. This is the third season we have run a REFRIGERATOR CLUB in March, and last year's club was so successful that we were unable to supply the demand. Our stock this year is larger than we have ever had before but we would advise

signing up early that you may get the size and style you want.

The "Monarch" line of Refrigerators for which we are sole agents are all built with double walls, perfectly insulated. A positive dead air space is formed in all the walls with especially prepared non-conducting felt or charcoal sheathing on either side of it, so that it is impossible for the outer air to penetrat the box.
