England Proposes Meet Against U. S. Prior to Olympiad

Sends Temple to Convince A. A. U. That Enterprise Will Be Best For All

New York, March 12.—With the communitarian idea of providing diversion for dear old London, a plot to thicken whereby the Olympic games of the United States and Great Britain will take place in an international day meet subsequent to the Olympic games in Paris this summer. The idea is strictly England's own and it has even gone so far as to despatch Sir Richmond Temple, director of the London association to New York to see what can be done about it.

Temple's hope to convince A. A. U. officials that the enterprise will be all for the best. He will go into immediate conference with them, armed with plans calculated to prove that the meet will react favorably upon the amicable relations between the two countries and can be conducted with slight expense to either, to say nothing of the prospect of much profit.

At the Empire Stadium, it is understood that Temple can promise the use of a stadium seating 200,000 for the affair. In this case, an attendance of 200,000 would go some distance toward underwriting the expense of the entire American Olympic trip to be made.

Present plans call for a program of twelve events, mostly of the standard variety, with first place only to count according to the continental system of scoring.

No Catch in Offer.

There is no catch in the thing. Mr. Temple intimates that the British are nothing up the sleeve, behind the ear or under the armpit. They expect to be disappointed. As far as is known of British athletics on this side, the American have little to fear in a dual meet. At the Antwerp olympic, the British turned out two men worthy of attention, namely A. G. Hill, the middle distance runner, and H. F. V. Edwards, the tapper sprinter.

It is believed that in this country and finds some difficulty in qualifying in his home against American sprinters. He seems to be all right and done with Hill, it will over thirty-five years old and can hardly turn to the form which brought him home to a double victory in the 500 and 1000 meter races at Antwerp.

Mancheater Bowlers Win First Leg of Match With Woosters by 4 Pins

The Manchester bowling team captured the first leg of its big bowling match from the Wooster team last evening on the Wooster Alley in Hartford, by the margin of four pins. The final total pinfall for the entire three games was 1554 for Manchester and 1547 for the Woosters. Manchester won two of the three games rolled, the first and the last, the first one going to Manchester by a 21 pin verdict and the final by 25 pins. It was a great comeback of the Woosters in the second game that made the score so extremely close as they won that game by 42 pins.

Burnham of the Wooster five captured the high single with a mark of 126. "Axel" Anderson of Manchester, who won the high three string with 535, also came next to Burnham with a 124 single. "Fido" O'Brien, well known state bowler, rolled five Hartford by 124 pins.

The match is for \$1800 prize and the final leg will be rolled at Marjory's Alley tomorrow night.
