He finds however, that the change of climate was not of a beneficial nature to him. As a matter of fact the winter in St. Petersburg, Florida, has been the most unhealthful and uncomfortable that they have had in ten years. Rain was rapidly more abundant than sunshine.

NEWS WRITERS SEEK TRUTH SAY DUFFY

per furnished by a well published writer, a serious case to publish. Now I do not for a moment claim that this is true of every newspaper in this country, though I am convinced that it is not. There are publications that all of us can call by name, because they have fallen into the hands of men who are lacking in the finer moral perceptions or men who are willing to sell their consciences for the sake of material advantages of one sort or another, the paper becomes what we commonly call "yellow" or it falls into the political mire where it is willing to grovel at the command of self-seeking public life.

SAYS TIGHT HATS MAKES HEAD BALD

New York, March 23.—Girls, bob your hair at the peril of becoming bald. Bolding makes tight hats the worse. Tight hats effect a woman's head in the same manner as the "iron skimmers" worn by men. FREE PROTECTION WORK IN UNITED STATES

Criticism has been launched against the stock fire insurance companies of the United States by an informed person claiming that these companies are not interested in reducing fire losses and are only working on a cost plus basis. This is certainly an entirely new angle in the fire insurance industry.

SPRINGTIME

Spring is the season when new energy and hope rise in the blood courses of man like the sap in the trees. It is the invisible urge which makes men plan for the future and make bold resolutions. People who don't feel the spirit of spring have forever lost the spirit of life itself.

LOOKING BACKWARD

The more fact stock fire insurance companies are spending thousands of dollars annually in fire prevention work in order to reduce fire hazards and thereby reduce insurance rates is a positive refutation of accusations which have been made that these companies have no concern about mounting the fire hazard. It is a positive refutation of accusations which have been made that these companies have no concern about mounting the fire hazard.
