Announcing the Opening of our New

POPULAR PRICE BASEMENT

ONIGHT we formally open our new Popular Price Basement. In this new department you will find furniture for the bedroom, living room, dining room and kitchen at very

much lower prices than anything you have hitherto

found in our new store. We have realized for some

time that there exists a demand for furniture which is

not entirely in accordance with our best standards of

buying. It has been our policy always to insist not only

on honest construction, but good design. The furniture

we have selected for the new department is not quite as

good design as you have been accustomed to find here.

Perhaps there is less attention to detail work. It may

show the lack of the last few hours of careful work on

the part of some good finisher or upholsterer. But you

will find the interior work not only of the dressers and

sideboards but of the upholstered furniture clean and

low. We have again used our tremendous buying power;

won by long years of quantity cash purchasing. This

brings the first cost down. Again we save you the loss-

es which an out-and-out installment house has to stand.

We are more than glad to extend credit to people we

know, or people who can give good references, but we

don't send goods out promiscuously as is the practice of

stores which advertise 50c a week on a large bill of

goods. Those stores send out large lots of goods with-

out paying much of anything down, but they make you

pay for it dearly in a very greatly increased profit which

they must add to cover the inevitable losses. The prices

of every thing in our new department are low as decent

A visit to our Popular Price Basement will, there-

furniture can be bought anywhere in the world.

MANCHESTER DAILY NEWS, WEDNESDAY, MARCH 26, 1924

that he is now secluded in the

southern part of Italy. day or two for them to screw them- It had not always been as it was. selves around once more into nearly their old positions.

If now one looks carefully for the joints where this bending is done, he sees at once that nearly all stalks have two. At the bottom of each leaf stalk, where it joints of each leaf stalk, where it joints where it joints of soft in the twing their stalk, where it joints was too little to understand things to understand the stalk in the twing their stalk, where it joints was too little to understand the stalk in the stalk in the stalk in the stalk, where it joints was too little to understand the stalk in the stalk

Six was the most beautiful mother twig, there is a spot of soft, bright green tissue, which is one joint. Then, at the other end of the stalk, where it joins the leaf, there is likely to be still another.

One sees this easily in the mean. The leaf, as a whole, has one of these joints between leaf stalk and stem. Then each of the three leaflets has one of its own, between itself and the common tent stalk. So, too, the three leaflets of the cover move, each by itself, by means of such a joint.

Curiously, however, as has been discovered only large, these bright green apots are not simply the joints of the leaf; they are also its eyes. It has bleen found that if they are also its eyes. It has bleen found that if they are also its eyes. It has bleen found that if they are also its eyes. It has bleen found that if they are also its eyes. It has bleen found that if they are also its eyes. It has bleen found that if they are also its eyes. It has bleen found that if they are also its eyes. It has bleen found that if they are also its eyes. It has bleen found that if they are also its eyes. It has bleen found that if they are also its eyes. It has bleen found that if they are also its eyes. It has bleen found that if they are also its eyes. It has bleen found that if they are also its eyes. It has bleen found that if they are also its eyes. Burgess, '16, asked.

On one street is an ice cream partor whose proprietor has just boy? Would you like to come away with their feet with nie, even if you never saw any of them again?"

Johnny told her he would. He bastidlospore, while the proprietor stands by in white apron.

Of course no customer can interpret that mother had come back into the house when they were all away.

Rare Sea Shell

In a specially provided case in the foyer of the American Museum of Natural History, there was exhibited recently for the first time one of the most highly prized coneshaped shells ever found in the world. According to scientific authorities, it is properly called "The Glory of the Sea."

"We shall be poor, Johnny, but we'll be happy," she said.

And, suddenly he heard mother praying. "Dear God," she said, "it is an doing the right thing, tell me. Thou knowest that I wish to do the right thing by the child."

Johnny grew very serious. He understood now that this adventure was a wonderful thing more so that he had imagined, and that they can command an uninterrupted sweep of the horizon. From any seat in the cabin of such an airplane a marvelous view of the landscape may be enjoyed.

FOR a nice dinner which may so that he had imagined, and that if mother went away without him now he would never see her again. Glory of the Sea."

It is about five inches in length.

"Get your things on, then,

of peculiarly slender appearance, johnny," she said. And hurriedly she began helping the child to tapering spire. It suggests an unfolding rosebud.
