growth, and if this interest is to make itself felt, it must be organized and representative. The Chamber is the logical organization for such representation. The man who will not lend his brains, his energy and some of his money to the efforts of his fellow citizens in directing the constructive forces of his community along the course that is best for the town as a whole is not a useful citizen. No man has a right to refuse his support to a community movement any more than the community has a right to refuse its protection to any man.

ssiping Tongues Voice Will Be Taken if Player-Writer Rule Takes Decided Action.

New York, April 8-William Tilden, world's singles champion, Vincent Richards, No. 4 in the national ranking list, and other lawn tennis stars who may be declared outside the pale of amateur ranking by the player-writer next year, may be prevailed upto to continue in competition as professionals, according to gossiping tongues. It is whispered that some bright soul has conceived the idea of organizing the tennis professionals along the lines of the proressional golfers association and with Tilden and Richards as a comoson background, to promote tournaments and championships. There is not the slightest reason

why such a plan should not prosper. There are professional championships in golf, squash, court tennis and kindred pastimes and they receive as much attention as innateur events. In addition filen and Richards are rather trong sales talk for any sica, With Rill Johnston about to retire, they represent the final and ultimate word in American tennis, Take them away from the amateur field and the turf court classic will be all
