Tilden's Decision Depends On Ward's Apology

Great Tennis Star Tells Public
Resignation Letter Holds Good
Unless Statement is Corrected
Resents Being Called "Evil Influence"—Says Only Complete Vindication of Amateur Status Would Induce Him to Return—Will Not Play in Davis Cup or Olympics Unless Apology is Made.

Philadelphia, Pa., April 22.—William T. Tilden, 24, national singles tennis champion, today added weight to his earlier statement by his resignation letter to the United States Lawn Tennis Association, declaring that only the complete vindication of his amateur status would persuade him to compete in the Davis Cup matches and other under the auspices of the body in question. Tilden made it very clear in his resignation letter that he is not returning to the tennis court under amateur status.

The report of Holcomb Ward, made public on Saturday, leaves no alternative but to accept his resignation as a member of the Davis cup team and other teams promoted by the United States Lawn Tennis Association. Tilden declared, "It is not my intention to play in the Davis cup or in any other tournament unless I am completely vindicated of the charge of having been an 'evil influence' to the younger generation in tennis."

The fact that he referred to me by name made me feel a personal attack upon me," the champion said this morning. "Mr. Ward is an estimable gentleman and undoubtedly knows very much about lawn tennis, but he is not a writer, and he cannot write good copy. I cannot agree with what he says. He has characterized my name as a menace to the good name of lawn tennis and if I cared to I could refute his report full of holes. I don't care to. I have been a tennis player for 15 years and I know how to do most of my talking to the tennis association. They have asked me to do most of their talking for them in the past several years. I leave it to the public to be the judge in the matter."

Tilden added that he had written his letter, resigning from the Davis cup team with the idea of clearing up a situation that had come very messy. He said that he had been given no indication that his resignation would be made public when he sent it to the Association's Executive Committee and pleaded his case some months ago.

"Mr. Ward's report was not read while I was present," he said. "As a matter of fact they excluded me from the meeting before he got a word in to the matter of making himself conspicuous at it. They simply bowed me out and in the session issued the report to me. I take exception. In that report I am singled out by name and declared to be a bad influence upon young tennis players. I say now, and I say always that unless Mr. Ward and the United States Lawn Tennis Association retract those charges immediately and publicly I will never take a tennis racket in my hands as a representative of that association."

Tilden added to his statement by declaring in postponement of the New York Glants-Holton Braves game this afternoon.
