Manchester Dairy Ice Cream At It's Best As Kept Perfectly By Our New

Frigidaire Ice Cream Cabinet

This equipment is an automatic freezing machine exactly the same as those used in an ice cream plant except that it is built on a smaller scale. This new cabinet eliminates all the old-fashioned tedious method of packing with salt and ice. It means no more salt in your ice cream, an unavoidable thing that sometimes happens with the old method of packing.

We will be able to carry all kinds of icre cream, ices and everything in this line.

This new cabinet has six compartments, each holding a 5-gallon can. The temperature is always kept the same by automatic machinery. This keeps the ice cream at its best. The temperature can be reduced in the cabin et to keep the ice cream in perfect condition in the hottest weather.

is uncertain, but it is probable that it was from the Arabians.

Above an unings ny mace towra will be especially unsuccessful the fluences tend to no epending of the have the augury of a happy and improving one's status as an entitle has been traced back to the From the Arabians the practice has been traced back to the Chinese. Some ancient archive of the ancient Chinese may some day reveal the name of the discoverer and the date of the discovery of inoculation. Modernity can lay claim to greatly improving upon the method of vaccination but is in danger of contradiction if it boasts of the original dis-

The antiquity of the custom immediately raised the question why modern medicine has not found a substitute for vaccination which would not necessitate the inoculation of the person with the same germs which it is intended the patient should not contract? Isn't the twentieth century now evolving such a substitute in universal sanitation and sterilization? Modern cleanliness may some day attain that point of perfection where the germ enemies of man will have been exterminated and the need of the vaccination antidote climinated.

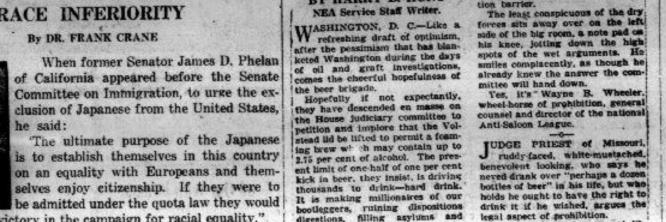

It pays to be honest. And it costs.

Grounds for divorce are usually battle grounds.

Now that spring is here, we are all seeing better days.

Dr. Frank Crane's Daily Editorial

RACE INFERIORITY

win their first victory in the campaign for racial equality." bootleggers, ruining dispositions digestions, filling asylums and Here is the very point that is the sore spot in our rela-

tions with Japan and other nations of complexion different The intimation is that the Japanese are an inferior race and happiness, tells the committee

Have You Pictured Your Friend As Executor?

If you intend naming your friend or relative as executor-trustee of your estate, have you pictured some of the problems he will have to solve?

Your business is successful now, while you are here to run it. Could your friend run it as well? Would he know how to solve your investment problems—those of income, shifting values, sale, and reinvestment? Your real estate-would he know how to manage it. when to sell, when to hold for increased value -so that your family would receive the maximum benefit?

Naming a friend or relative as executor is in most cases not properly providing for the future of one's family. Executorship is a job for experts-it is work for a trust company. because it brings to such problems the business judgment and sound counsel of many minds experienced in many fields.
