Says Coffee Fruit Is

Similar to a Cherry "It is doubtful if in all nature there is a more cunningly devised food package than the fruit of the coffee tree," says William H. Ukers in "All About Coffee" (the Tea and Coffee Journal company, New York). He describes it minutely as

cherry, though somewhat elongated and having in its upper end a small umbilicus. But mark with what p ingenuity the package has been constructed. The outer wrapping is a thin, gossameritke skin which incloses a soft pulp, sweetish to the taste, but of mucilaginous consistency. This pulp in turn is wrapped about the inner seal, called the parchment because of

of tissue paper. And this last wrapper is so tenacions, so true of it cling to the bean even in the roasting and grinding processes.
