How to Buy Good **Furniture on Time**

Buying furniture on time is the easiest possible way to furnish your home. It allows you to ture all the time you are paying for it—and it is so easy. Each week or month when you receive your pay envelope or salary you send or bring to our store a stipulated amount which we will agree on in advance. We allow a full year's time on a reasonable size bill and on pianos fully two vears.

The prices you pay arc the prices marked in plain figures on everything on our floors. There is no interest charged if payments are made as agreed. If you have sickness and cannot meet some of the monthly installments when they become due all you have to do is tell us about it. We are always glad to make allow-

Most people buy their furniture and pianos on time. Why not try our

hammocks with a touch of color. For them we have a hammock covered with combination figured cretonne and plain duck, with cotton mattress and padded back \$36.90

Porch Rockers of maple with double woven cane seats and slat backs, green or brown finish \$2.98

\$398 Buys a \$700 Suite

But only until next Thursday. This de-luxe Jamestown suite of three pieces is a one week special. It consists of a low back davenport-the latest word in style-with deep spring construction and cushions, a low back club arm chair to match, and a high back chair with spring seat. This high back chair is the very newest idea-getting away from the monotony of too much upholstered furniture in a room. The suite has hand carved bases of solid mahogany and is covered with the heaviest wool tapestry.

Queen Anne Bedroom Suites \$193.50

The Popular Price Basement offers this unusual value. The suite is constructed of combination mahogany and consists of a full size bed, large dresser and chiffonier, and a full length vanity dresser. The design is inspired by the Queen

PAYING THE PIPER

National affairs have taken that turn where they imperatively argue against the retention of our system of bestowing government honors upon those wealthy citizens who have contributed generously to the campaign fund of the party in power. Had there been no contributions to the last presidential campaign funds above the line of suspicion the nation passed discouraging these things. would have been spared the disgrace of the Teapot Dome and

cause of this the political parties have held no scruples against accepting, and perhaps even courting, large gifts from big business and the rich. It is very doubtful if national campaigns could be continued on the extravagant scale years. of the past should the "special" contributions be forbidden. It has not been shown, however, that it would be impossible writer declares: to elect a president at less cost than heretofore.

Most of those who contribute freely disclaim unworthy

ment. If anybody suspects a mercenary taint upon either, much can be done to remove it by lessening the apparent influence of rich men in political parties. Let those in possession of great fortunes pass a self-denying ordinance; let them refuse to turn over money to a politician just because they have it in plenty and wish to be known as good-natured. They have their bands to a large extent upon the sources of corruption in public life, and should resolutely do their part in dry
The distors again come under a plantic manner on the source of the month. He fired me on the spot. 'All right,' says I, 'Thi go, who restrant the spot. of finished products, the recent increase in crude oil costs resulted in solution in solution.

"The public need have no alarm as to sufficiency of gasolime supply, despite reduced crude oil production. Through
adoption of improved refinery practices, and by further installation of cracking facilities and casing-head gasoline
plants, the industry will be able to meet the increased deriand.

"Perhaps the public does not realize the revolutionary
changes in refinery operations required in recent years ago gasoline
recovery from cracking stills and casing-head gas plants was
little known; neither was then developed to any sceneral commerizal extent.

"The importance of these two new forms of gasoline recovery may be appreciated by the fact that without them the
gasoline supply of 1923 would have fallen far short of demand.
