

MANCHESTER ATHLETES WILL PLAY LEADING ROLE IN HARTFORD COUNTY'S EFFORTS TO WIN STATE "Y" MEET AT MIDDLETOWN SATURDAY

Lamberton Says He Banks Heavily On Local Stars To Spell Victory For County in Annual Meet at Wesleyan College—Anderson Entered in Six Events.

One of life's saddest sights is a college professor trying to explain a baseball game to his fourteen-year-old daughter.

At last we have a definite estimate of the worth of that much-abused figure, the baseball ump. A newspaper clipping dug out of the files reads: "The loss caused by the fire at the baseball park is estimated at \$50,000. It included the uniforms of the players, and two umpires."

Now a fashion expert says: "That stripes will be in style; so if you can't afford new clothes, just stay in jail a while."

They Almost Caused Riot

The fact that Hartford County never won the State meet before together with the fact that they have by far the best chance to win this year has spurred the young athletes who qualified for the team to train harder than ever before, realizing that a golden opportunity for victory stares them squarely in the face.

Every single county in the state with the exception of New London, which as yet has no organized "Y" will be represented in the grand affair at Wesleyan. Litchfield and Fairfield counties are the ones who won the medals in the past two years, but it really looks as though Hartford will bring home the home title this year.

In an exclusive interview with Lamberton this morning, the writer learned that the Manchester boys who qualified were entered as follows:

Capital Anderson, Running High Jump, Running, Broad Jump, 100 Yards Dash, 120 Yards Low Hurdles, and 160 Yards Dash.

McAvanagh, Substitute for the Relay and the Running High Jump. McAvanagh may substitute for Bellamy in the Running High Jump owing to a slight ankle sprain which Bellamy has.

The locals have been training conscientiously ever since they started a week ago and are in the pink of condition for their acid test and a chance to add glory to Manchester in sporting circles.

It will be the same policy. Carpenter adopted before the Dempsey fight.

It is a fact that the Ribben was also for a setback tonight. The lineage of the two teams as given out by the managers follows:

SCHOOL DAYS

IF IT IS THE MILLENNIUM DAUGHTER, AND SHE HAS GROWN TO BE A GIRL THAT I WOULD BE THE JEWEL THAT TREMBLES IN HER EAR.

LOOKS LIKE IF YOU'D STOP IN THERE, YOU'D DROP DOWN CLEAR TO THE SKY, DON'T IT?

Conner Pitching Against Pirates

Tonight will play the local Pirates in Glastonbury finding the strong J. B. Williams baseball team of that place. It will be the opening game of the season for the Williams boys but they expect to account with the season's best team for a defeat handed them last year by the local team.

In meeting the strong Glastonbury outfit, the Pirates are going to bump up against what may turn out to be the toughest proposition that they have faced this season.

The fact that Conner, who is writing A. N. I. hall for the Addison team will pitch for the Williams team means that the Pirates will have to do some high stepping to return a winner. Conner is rated as one of the best amateur pitchers in the state having won and recently applied a coat of whitewash to the local Red Sox, winning 6 to 0.

"Letty" Seelert will probably anchor the hill for the bouncers and should give the Williams team plenty of difficulty in solving his delivery. The official lineage of both teams follows:

Pirate A. C. J. B. Williams (C), Anderson (R), McAvanagh (P), Seelert (P), Conner (P), Waddell (P), Avey (P), Thorton (P), Fagoda, as Parton, 3b, Henry, 3b, McCreer, 1b, McKewin, 1b, O'Connell, 1b, Wood, 1b, Wiganowski, rf, Conner (C),

Claims Cold Weather Retarded Pitching and Halted Morning Batching Practice—Speaks Briefly About Baker.

By DAVIS E. WALSH) New York, May 22.—John J. McGraw rode into town on a cricket last night and delivered himself to a brief oration, dealing with William H. Baker, who charged the city with tampering with ball players, and with the New York Giants themselves, whose spring training record is the best in the last fourteen years played. John threw his knee clear to the sky, and he spoke on the same to some of his pitchers.

Not Pitching Alone "It has not been the pitching alone," quoth Mr. McGraw from the depths of a wheel chair. "When the pitching was good, the fielding was good and the hitting fell off. I am informed that young Dean pitched a good game at Pittsburgh the other day but that his support was terrible. Bad weather has upset the whole league and teams that should be up at the top are floundering around near the bottom."

"For four weeks, the Giants have had no morning practice and that, I think, accounts for their light hitting." "He has played a good game at Pittsburgh and we have played all night on the road."

"That is one of the things that the Giants will come back to," worried about the fact that they are in third place, because they have the stuff and it will show, ultimately.

WORLD UNDERSTANDING.

In a popular play of the season just coming to a close the playwright has placed in the mouth of the leading man the words "if all the kings, dukes, princes and other potentates could sit down together at the festive board there would be an end of war and international hatred."

Thus did the playwright interpret that which is in the mind of all the world today; that knowledge is understanding and that nations misunderstand each other because they do not know each other. Strange neighbors are quarrelsome neighbors.

Under the spell of the war there many of all nationalities who trusted in the efficacy of a league of nations in one form or another. They forgot for the moment that nations misunderstand each other because they do not know each other. Strange neighbors are quarrelsome neighbors.

Dr. Frank Crane's Daily Editorial

HOW DO WE KNOW THERE IS A SOUL?

By DR. FRANK CRANE
 Thomas Edison has said: "My brain is incapable of conceiving such a thing as a soul. I may be in error and man may have a soul, but I simply do not believe it. What a soul may be is beyond my understanding. I should not wish to be understood, however, as denying the existence of a soul. My position is that I have never been convinced."

Thomas Edison is one of the greatest men of this time. He is not only a great doer, he is a great thinker also. Therefore, whatever he says about any subject is worth attention. I wish, however, to point out what we know that Edison believes there is such a thing as a soul. Mr. Edison uses the word "believe" loosely. What he means is that to his mind the balance of probabilities are not in favor of the existence of a soul.

Accurately speaking, belief means the acceptance of something that lies beyond the point of our knowledge. Strictly speaking, we believe only what, in the nature of the case, we cannot know. I believe there is a soul for the same reason that Mr. Edison believes there is such a thing as a soul. He does not know what a soul is and Mr. Edison does not know what electricity is.

He believes in electricity, its functions and powers and laws, for the simple reason that when he acts as if these things were so he gets certain invariable results. I believe in the soul and in its functions, laws and reactions, for exactly the same reason.

No kind of force can ever be known in the same way that we know that two and two are four. But you can measure it, use it, find out what it acts and depend upon it. This is science. When you go to speculating about what the essential nature of a force may be you are not talking science, you are talking metaphysics.

My "belief" in the soul is not metaphysical; it is scientific. This, I assume, that there is a soul. I take that as an hypothesis, but I observe how my theory works. As to my mind, it works better than any other theory in the explanation of human phenomena.

The hypothesis that man is merely an animal, as a horse or a dog, may explain many things; it accounts for hunger and pain and fear and sex desire and so on. But the trouble with that theory is that it does not at all account for those phenomena which have most characteristic of man, which include poetry, patriotism, art, science, literature, or any of that set of functionings which are the latest product of evolution.

Above all, any other theory than that of the soul fails to account for the most outstanding thing of all, which is Personality. Of course no one knows what Personality exactly is; but, by the same token, Mr. Edison does not know what electricity exactly is.

I know there are souls because I deal with souls. I know some of the laws of the soul. I know the powers and reactions of souls, and, altogether assuming that there are souls, I get certain dependable results. And that is just exactly the way Mr. Edison works in his electricity.

HOROSCOPE

THURSDAY, MAY 22, 1924

Uranus in benefic role early in the morning should be helpful in many ways, according to astrology. Mars and Saturn are adverse later in the day.

There is an especially fortunate sign for persons who start on journeys while this configuration prevails and indications are that there will be a great deal of travel during the summer months.

All brain workers should benefit from the planetary government today which is believed to make for straight thinking and efficient action.

Spring days will bring to even the malcontent a serenity of mind and hopefulness of outlook that is most favorable for the nation.

If the seers are to be believed there will be labor troubles fomented at all times, although they will not affect the general public until later.

Strikes and riots may be precipitated in certain sections of the country where race difficulties appear to be incited.

Practical attention tending toward agitation for military preparedness will be evident during the next few weeks.

Increase in the number of suicides is still forecast by astrologers who find that many love tragedies will be enacted.

Political excitement is to be caused by a sensational episode in which a high public official will be involved, it is pronounced by astrologers.

Series of extraordinary character will mark the national campaign, the seers prophesy, for the presidential election will be a contest of unusual interest.

Educational interests are to be forward at this time when vigorous reforms for the next years will be discussed.

Honors for a college team are forecast, but the stars indicate that the team will be disappointed in the realization of its chief aims.

Buttercup Gets His First Scap

THURSDAY, MAY 22, 1924

"HELLO, CAPTAIN! COME IN, YOU'RE BEING CALLED!"

"WHY, DICK, OLD BOY! COME IN, YOU'RE BEING CALLED!"

"NO, NO, BUTTERCUP! MUSTN'T FALL MY NERVE!"

"WE'VE GOT AN INDIAN FOR BABY!"

"THOUGHT I'D BE LAUGHING, I NOW KNOW WHY DICK LOOKED SO YOUNG!"

"HAW, HAW! INDIAN GOT HIS FIRST SCAP!"

"TUT, TUT, JUST BECAUSE OLD MAN GUNN WENT TO THE STORE, I'M NOT SAYING WE CAN'T GET IN IT!"

"BUT HOW CAN WE WORK IT?"

"SOMEONE HAS FORGED A CHECK FOR FIVE HUNDRED DOLLARS. I'VE PHONED THE DEFECTIVE AGENCY TO SEND A COUPLE GUARDS OVER TO LOOK UP THE CASE WHEN THEY ARRIVE."

"ARE YOU MR. GUNN?"

"YES, I'VE BEEN EXPECTING YOU MEN. YOU ARE UNDER DISGUISE. I SPOKE TO YOU LAST NIGHT AND WE'LL TALK BUSINESS AT ONCE."

"THEN YOU'VE FINALLY DECIDED TO BUY A TWIN EIGHT?"

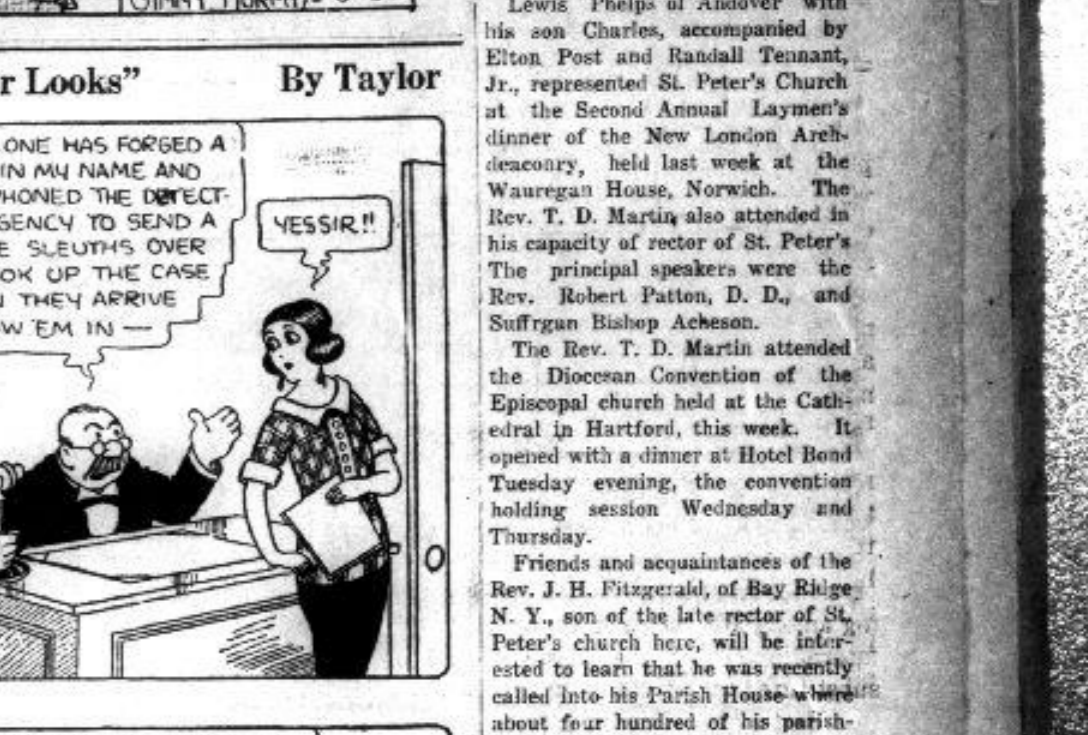

"I'VE BEEN EXPECTING YOU MEN. YOU ARE UNDER DISGUISE. I SPOKE TO YOU LAST NIGHT AND WE'LL TALK BUSINESS AT ONCE."
