Character of the absolutely unreliable.

The recent experience with the army world flyers is cited by high army officers as the most atriking example of the breakdown of communication.

It proves, they declare, that in time of war America's cable connection with the Far-East would be largely a matter of good luck and thought of the process of the absolutely unreliable.

David Ress had received a heavy blow financially and to his affections as well. He was an old, significant old fellow, but when an impulse swayed him he carried it to the full limit.

BRATING SPEECH

"His fervent love of America list. He cannot look with comre upon any plan or proposal tich would limit directly or by crence the independence of Amrica. His devotion to his lountry will never permit him to fail in protecting Amercan rights.
III. The Human Being.

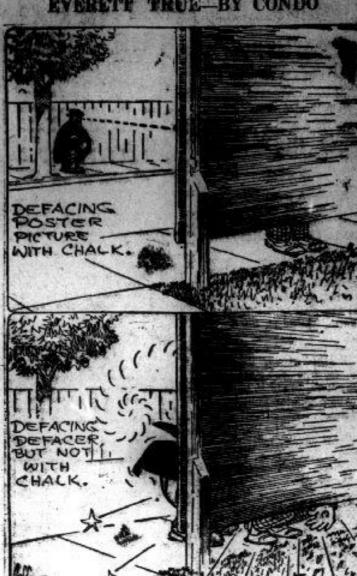

"We have seen what manner of man he is. We have found him to be superbly American. The roots of true Americanism run down deep into humanity. To be an American is to be a member of the human race. It goes deeper than national lines or political issues into the very heart of mankind. It rests back upon the value which we place upon a human compared to or should be given in exchange for human being. "He has unlimited confidence in

the people. This is said in no cheap sense. It is an ineradicable part of his theory of representative government. He actually proceeds upon the conviction, as Thomas Hooker put it, that 'the foundation of authority is laid firstly in the free consent of the people,' This is a favorite quetation of the President's. His whole career is a challenge to every citizen to perform his public duty. As a human being ne believes without reservations in

erica, His devotion to his country value and right to organize. His was own words are significant. 'It is well also that the people have the power to organize for their industrial protection and advantage, Here, too, there may be serious errors, but here, too, such errors have been matched by the errors of those charged with the responsibility of management. Oftentimes the inconvenience and loss fall on the innocent. This is all a part of the price of freedom.' His ideal, however, is co-operation, not enmi-

Sermon on "Troubles" at Second Congregational Church

Last Sunday morning the paster of Second Congregational Church, Rev. G. E. Richter, selected "When Trouble Comes" as the theme of his kermon. He declared that the advice of the worldly wise regarding trouble is "to take it philosophicalbe" and then proceed to analyze the meaning of the phrase and to de fine its last word. Philosophy, in its breader meaning, he stated, is simply "the love of wisdom", but philoscoby has actually been narrowed and divided. Menual philosophy and moral philosophy were its two main ions until the present generation has labelled mental philosophy ns psychology, and apparently found no substituce for, and little on for the old-time moral philosophy. The platitudinous advice to take troubles "philosophically", he wait, meant simply not to be foolover it, but to face it wisely. ch edvice he believed to be too al to be of any value. In class times, Mr. Richter stated, the ks, who were great lovers dom, had two iea ling schools of ay, that of the Stoics and at of the Epicureans. The basic
