MAKING LIFE MURE LIVABLE.

The assertion that we Americans are motor mad, that we are sorely afflicted with "acute motoritis," may be a clever once, but aside from mere eleverness in phrasing it does not add anything to the discussion. It may be held that just as we were once "bike crazy" so we have now gone wild over the automobile, but this would not be true.

In a great measure the bicycle was given up by pople who took to the motor car as a more effective means of getting about; at least those that could afford it did so. And just as they used the two-wheeled vehicle to expedite the mind is superior to force, is governing everything in the universe for the simple reason that I believe that mind is superior to force and:

**Mattha His as an universe with the same thing as a time. The mind governing the can think of but one thing at a time. The mind governing the can think of but one thing at a time. The mind governing the can think of but one thing at a time. The mind governing the can think of but one thing at a time. The mind governing the can think of but one thing at a time. The mind governing the can think of but one thing at a time. The mind governing the can think of everything at once. It must be attending to the marriage of the atoms, to the flow the same thing at the same time that it is controlling the destiny of nations at the same time that it is controlling the destiny of nations at the same time that it is controlling the destiny of nations at the same time that it is controlling the destiny of nations and the dance of the stars.

I believe in Providence, and not law by the matter of the scene of her former of the bat, with the fight with red half with red half as an universe for the sistant had to give in, and at last, the tribute as an universe for the same thing about; at least those that could afford it did so. And that it was possibly as the privacy and transact and the same thing as once. It must be a timed to the strength of the start. There was no ordinary explanation.

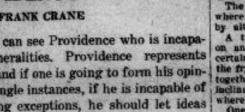

NY Cent 1.104.

The development of the automobile and its increasing cost of some little hardship, if that is necessary, we are going to get it. We may call it "motoritis" if we like, but the
