Some day an expert in such matters will calculate to a nicety how much in hours of work and money might be saved to the nation in the course of a year if the sender of a letter would be only a bit more careful in addressing it and putting his return address on the envelope. When we learn how much may be saved in this manner, we shall all be surprised beyond measure. By a writer on this subject it was said some years ago that 30,000,000 pieces of mail matter went to the dead letter office each year. If it were more widely known than it is, to what extent this adds to the cost of our mail service, every letter-writer in this country would see the necessity of taking more pains in addressing letters.

The games scheduled with the Framingham, Mass. team for the local baseball park tomorrow is cancelled. the local baseball park tomorrow is cancelled.

This announcement was made this morning following the receipt of a special delivery letter from the manager of Framingham team in which he said he would be unable to bring his team to this place unless he received a larger guarantee, at the same time giving his figure.

Manager Ballsieper was very much surprised at the ac-

tion of his brother manager and there was a meeting of the ocal baseball commission right away. It was decided to send the Framingham manager a wire to the effect that it would e unrecessary for him to bring his team here tomorrow and the wires are now being burned up in an effort to secure another team for tomorrow's open date.

Manager Balsieper said it looked to him like a deliberate ldup, as the arrangements with the guarantee, etc., had aleady been agreed to. If another tea mis secured for tomorrow the announcement will be made at the Torrington game "Art" Johnson, former Manches-
