Give Your Wife This Message

IF your wife says that washing dishes and clothes has made her hands look red and coarse and feel uncomfortably rough, remind her of these facts:

That such hands result from the use of an inferior household sosp which irritates the skin. That she should select the kind of household sosp she uses with as great care as she does her toilet soap.

It is this reasoning that has led thousands of the most intelligent housewives always to insist upon Kirkman's Soap for every household and laundry

And if your wife will insist upon Kirkman's she will get a soap as harmless to her hands as is the most exquisite toilet soap.

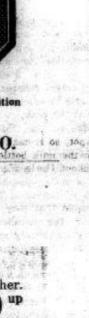

THE reason is that Kirkman's Soap is free from I lye to harm the skin or injure the most delicate fabrics. And the cleansing properties of Kirkman's Soap make it a quick and most thorough cleanser.

You find that most of the "clow-grease" is in the suds when you use it.

For the sake of your hands, insist upon Kirkman's.

YOUR HANDS WILL BE GRATEFUL
