An Important Unit

OF THE

World's Largest Paper-Making Institution

The Oakland Paper Company has the distinction of being a Division of the large 26-mill unity of the American Writing Paper Company, whose Eagle-A Papers are the standards of quality of paper buyers throughout the world.

The skilled paper craftsmen of the Oakland Paper Company Division add their quota to the 450 tons of paper manufactured every day by the 26 mills of this big organization.

By specifying Eagle-A watermarked papers on all printing orders, you obtain better values and lower costs, and also contribute to the prosperity of Manchester.

SILKS

Manchester, the largest town in Connecticut, noted for its cleanliness and beauty, is a most attractive place in which to work and live.

The Town has exceptional opportunities for education and amusement. A number of the finest schools in the State, including a High School and Trade School have been built here. The School District also operates two Recreation Buildings and Playgrounds.

The mills are well ventilated, sanitary, and equipped with all modern safety devices. A Sick Benefit Society with medical and surgical attention is maintained. The wages received are among the highest paid in the textile trade.

Cheney Silks include Dress Silks, Velvets, Decorative and Upholstery Silks, Ribbons, Cravats, Thrown Silks and Spun Silk Yarns.

DIRECTORY
of the
Town of Manchester
CONNECTICUT

Compiled and Printed by
THE HERALD PRINTING COMPANY
MANCHESTER, CONN.

Entered 1922, According to Act of Congress
By THE HERALD PRINTING CO.
In the Office of the Librarian of Congress
at Washington

Publisher's Preface

This number of the Manchester Directory is the largest and most complete ever issued. It contains 9,526 names and addresses, a business directory, a revised street directory and a new map of the town drawn especially for this work and comprising all the new streets and real estate developments up to September, 1922.

The publication of the Manchester Directory, which was suspended because of unsettled conditions caused by the war, will be continued annually in the future.

THE HERALD PRINTING COMPANY,
Publishers and Printers.

Sept. 20, 1922.

THE JOHNSON FRICTION CLUTCH

A DEVICE USED IN FACTORIES

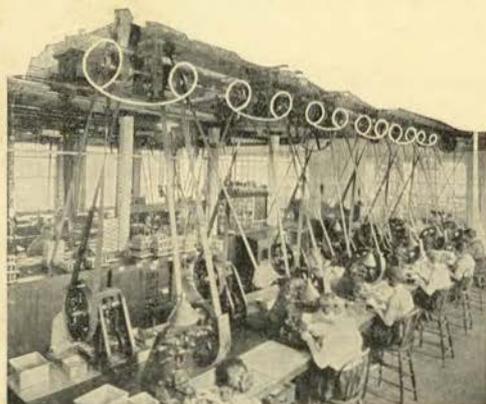

of All Kinds to Drive Medium and Light Power and Start and Stop Machinery Instantly

The use of this Clutch eliminates throwing off of belts, a hazardous and inefficient method.

SINGLE CLUTCH SECTIONED

By driving direct from line shaft there is a great saving in belting, pulleys and hangers and the upkeep of such material.

LINE SHAFT DRIVE

Note the up-to-date way of driving machinery direct from line shaft with the Johnson Friction Clutch, as shown in illustration.

A much neater and cleaner shop, less noise and more efficient.

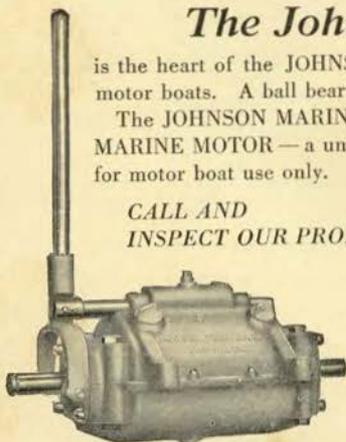

*A Product
of Great Merit*

The Johnson Friction Clutch

is the heart of the JOHNSON MARINE REVERSE GEAR — a device for motor boats. A ball bearing gear with alloy steel gearing and shafting.

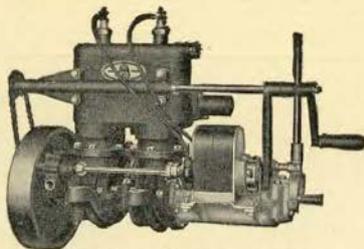

The JOHNSON MARINE REVERSE GEAR is a part of a 5 H. P. BUD-E MARINE MOTOR — a unit power plant of exceptional compactness, designed for motor boat use only.
