Directory Advertising

SOMETHING

To Think About

For the Advertiser and the Consumer

Do YOU REALIZE that an Advertisement in the City Directory is a Testimonial to the Permanency and Stability of the Advertiser?

A City Directory Advertiser is the logical one to patronize. This permanency and stability is your assurance of a square deal in buying merchandise or having work done.

"FLY-BY-NIGHT," "FIRE SALE," "GET-RICH-QUICK," and other temporary concerns, rarely appear, or advertise, in the City Directory.

It is a noteworthy fact that 90% of the City Directory Advertising is renewed from issue to issue.

There are dominant factors connected with City Directory Advertising: first, the low cost and staple publicity it affords, locally and nationally; second, this co-operation and patronage is wholly responsible for the very existence of the City Directory.

The modern City Directory is a wonderful asset, credit and benefit to the community it represents. In turn, that which benefits the community, automatically benefits the Advertiser.

Judicious Advertising is always a good investment, and City Directory Advertising, cost considered, renders larger returns than any other medium. In connection with the complete Classified Business section, it is doubly effective.

While we have offered you "Something to Think About," it is also Something Worth Remembering.

The Price & Lee Company is pleased to publish the 1975 edition of the Manchester City Directory. The City Directory contains household and business information within five major sections.

- I. The Buyers Section, printed on ivory paper, displays under appropriate headings, those advertisers within the community who ardently support the directory service and desire to make a presentation of their products and services.
- II. The Classified Section, printed on yellow paper, lists alphabetically under appropriate headings those businesses contained throughout the City Directory, serving as a comprehensive guide of the business sector in the community.
- III. The Alphabetical Section, printed on white paper, is a complete alphabetical listing of all available households and businesses; and defines that information according to home and business addresses, occupations, marital status, etc.
- IV. The Street Section, printed on green paper, contains in alphabetical sequence all streets; and list under each street description in numerical or house sequence the dwellings on that street, the occupant, telephone number if possible, and an indication of whether the home is privately owned. Business information is characterized by job description where pertinent.
- V. The Telephone Section, printed on blue paper, is a complete list of all phones numerically listed under appropriate exchanges giving telephone number and owner.

The five sections of the City Directory, along with the introduction (including governmental information) gives a complete survey of the population of the Manchester community.

Total mileage of streets, 165.15
164.32 of which are paved.
Sewers, 100 miles, plus primary
and secondary sewer treatment
plants, valued at \$6,000,000:
Fire hydrants 685 for Town of
Manchester: 172 for Eighth
Utilities District. 14 miles of
bus lines. Bus service to
surrounding towns.

Average daily water consumption 4,000,000 gallons with 116 miles of mains. Total value of water utility estimated at \$4,000,000. Private water company daily consumption 1,560,000 gallons.

Fire Departments (Town and Eighth Utilities District) consist of 6 companies all motorized with 16 machines of the latest type in 5 station houses. The personnel consists of 235 volunteers and 60 full time men.

Police Department consists of 76 men. 13 cars, 2 emergency trucks with one station house, in which building the jail and courtroom are housed.

MUNICIPAL BUILDING

HISTORY

MANCHESTER ranks 19th in Connecticut cities in population and 16th in wealth, is the third largest community of the name in the world, and the first in per capita wealth, and it has functioned under a system of town government since it was set off from the parent town of East Hartford in 1823. On June 30, 1947, the Council-Manager form of government was voted by the town. Its present area of 27.6 square miles, formerly known as the Five-Mile Tract, was purchased from Chief Joshua of the Mohegan Indian tribe in 1672. It later became known as Orford Parish through the establishment by the General Assembly in 1772 of the Orford Ecclesiastical Society.

The Hockanum River eventually relieved the early settlers from sole dependence on agriculture. A sawmill was built at Hilliardville in 1672 and a paper mill was operating in Union Village before the American Revolution. The news of the Battle of Lexington was printed on paper made in this mill.

Shortly after the close of the Revolution, other paper mills were built, the famous Pitkin Glass Works were established at Manchester Green, the first successful cotton mill in Connecticut was running at Hilliardville, cast iron plows and pleasure carriages were being made, copper was being mined at Highland Park, almost every home was turning out wool and linen cloth, and Timothy Cheney was making his "grandfather's clocks" in Center Springs Park, where one of his apprentices was John Fitch, later the steamboat inventor.

Many of these enterprises collapsed later and industry and social life were saved from stagnation only by the industrial revolution and the introduction of the railroad after the creation of the Town of Manchester in 1823. From that time it slowly but steadily grew in population and in industry, especially the manufacture of paper, cottons, woolens and silks.

MANCHESTER HIGH SCHOOL

After a disastrous experience with the growing of mulberry trees for silk making, the grandsons of Timothy Cheney, of clock fame, began the manufacture of sewing silk in South Manchester in 1838. The advance of Cheney Brothers to a premier position in the industrial world has been a rough measure of the progress of Manchester.

The cheapening of transportation and the town's proximity to such a great distributing center as Hartford, only nine miles away, have been two

of the principal factors in the growth of Manchester.

Manchester, Conn., is the home of the world wide famous Cheney Mills. It is also the home of Iona Mfg. and Pioneer Parachute and other smaller, but prosperous industries which have grown up with the town. Its splendid highways and beautiful residences, detached from its factories, vie with any in the state. Always an important junction point between New York, Hartford, Springfield, Providence and Boston, the coming of the automobile and other modern conveniences has increased its opportunities and magnified its importance. Its schools, churches and public buildings, its telephone, telegraph and postal facilities would be distinctly creditable to a far larger community. Its people, an amalgam of many races, are imbued with a real civic spirit and devotion to the town.

MARY CHENEY LIBRARY

Manchester has six service clubs, a country club with 18 hole golf course, three large recreation centers, one theatre and a park system which is one of its main attractions. Its fraternal organizations are usually numerous, active and progressive, giving their aid freely to all worthly movements. Its hospital, a war memorial opened in 1920, is as modern and well-equipped as any of its size anywhere and is approved by all agencies concerned with accreditation.

As a marketing center the town draws customers from a large surrounding district through the excellence and high standards of its stores.

MANCHESTER EVENING HERALD

Form of Government

Manchester was founded in 1672 and incorporated in 1823. Manchester operated under a special charter granted by the Legislature providing for the old New England Town Meeting form of government until June 30, 1947 when the Legislature granted the new Council-Manager form of government to the town. The present town tax rate is 49.30 mills. The fire tax is additional. The total net taxable Grand List is \$266,943,032.

"What You Should Know About Your City"

"The helpful kind of patriotism is the kind that grows out of a knowledge of one's town, of her growth, her people, her property, her government and her needs. This knowledge develops first, an intelligent interest; then, a sympathy; then a reasonable affection, a wise and temperate jealousy for her good name and a wish that she may prosper and grow more beautiful; and finally a desire to help her to become greater and finer, a bright and clean workshop and a home for the best of men and women."— Joseph Cotton Dana.

WELCOME TO MANCHESTER, CONNECTICUT "City of Village Charm"

THE LATCHSTRING IS OUT—you are invited to come to Manchester to live!

Towns are very much like people— some are friendly and make you feel at home right away; some are conservative to such a degree as would make you feel always a stranger. But Manchester is one of the friendly towns; our people are cordial and will bid you welcome.

The sense of "home" is deeply rooted in everyone and its broader meaning applies to the community itself as well as to the individual citizens with-

in the community.

Manchester is the kind of town you'll be proud to call "home". It has all the simple charm and natural beauty characteristic of New England towns, enriched by its heritage from the past, for Manchester dates back to the early Colonial days. At the same time it has all the comforts of the modern city of today.

Manchester has much to offer you and in justice to your family and yourself, and in consideration of your future comfort and happiness, you should

visit Manchester and learn the facts of this beautiful "home" town.

HOWELL CHENEY REGIONAL TECHNICAL SCHOOL

Manchester, Connecticut, is situated in the lovely fertile valley of the Connecticut River, nine miles east of the capital city, Hartford. It is on the famous Roosevelt Highway which is U. S. 6. Manchester is almost exactly midway between Boston and New York. U. S. 44 highway runs through the center of the city.

The total population of Manchester is 50,000 estimated for 1974. Manchester is served by the main line of the Midland Division of the Penn

Central Transportation Company. (Freight Service Only).

The school system of Manchester has a very high rating and is said to be among the finest of the country. The staff of teachers is of the very highest caliber and buildings and equipment are much superior to that found in the average community of similar size. The 5 million dollar high school is one of the largest in New England. There are fourteen modern elementary schools, four parochial schools, a state trade school and a community college. Manchester also has two libraries and one branch library.

The Manchester High School offers a comprehensive program which enables students to prepare for college or to achieve certain skills which help them prepare for post high school work. The program includes in addition to academic subjects offerings in art, music, industrial arts, home

economics and business.

A guidance program assists pupils in selecting subjects best suited to

their needs, interests, and abilities.

In addition, there is an extensive extracurricular program which includes most interscholastic and intramural sports, literary and forensic activities, hobby clubs, service clubs and dramatics.

The school is housed in a plant built in 1954-55 and has a pupil enroll-

ment of approximately 2,000 students.

All the school buildings are situated in spacious grounds, all having ample playgrounds and fine athletic fields away from the busy thorough-There are three recreational centers with full-time staffs of instructors, offering splendid opportunity for swimming indoor games and all kinds of gymnastic work.

Manchester has a keen interest in music and there are many recitals and concerts during the course of a year by local and out of town musical organizations. There are several fine aggregations, some of which are women's and the two men's choral societies, two brass bands, and two

Scotch bagpipe bands.

The religious, fraternal and social life of Manchester is highly developed and intensely active. Twenty-nine churches contribute to the spiritual wel-

fare of the people.

Manchester has a beautiful Country Club with an eighteen hole golf course; two theatres, one seating 1, 252 and the other a triple theater complex seating a total of 1, 302; a modern hospital with 303 beds and 34 bassinets approved by all agencies concerned with accreditation; two libraries and one branch, four banks and one Savings and Loan Association, and a Community "Y".

Manchester is a community of resident owned and operated industries. The internationally known Cheney Mills, Pioneer Parachute, Iona Manufacturing and a wide variety of paper products, fine metal products, fine worsted and woolen goods, plastic novelties and is the home of the largest nurseries in the country, C. R. Burr, Inc., extensive tobacco acreage, jet and missile components, heating equipment, and many other lines of commodities are produced in Manchester's manufacturing plants.

HOW MANY CHANGES IN A YEAR?

Out of every 100 People as listed in the last Directory

ARREARIARIA - A AV

16% to 18% Move away or die

17% to 19% "New" people move into town or reach listing age.

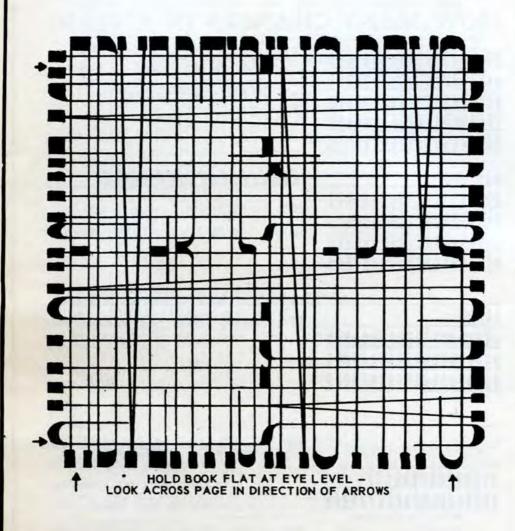

26% to 29% More change their addresses or their jobs or some other vital fact that affects their listing.

Making a total of 59% to 66% of the People listed who have new information in some particular which can be surely found only in the NEW DIRECTORY

·#~\$\$\$\$\$\$\$\$\$

Note: These figures are from repeated checks in numerous cities and do not vary 5% in any one year.

THAT IS WHY NEW DIRECTORIES MUST BE PUBLISHED EVERY YEAR.

HOW MANY CHANGES IN A YEAR?

Out of every 100 People as listed in the last Directory

11111111111111111

16% to 18% Move away or die

17% to 19% "New" people move into town or reach listing age.

(All that's left that's good)

26% to 29% More change their addresses or their jobs or some other vital fact that affects their listing.

Making a total of 59% to 66% of the People listed who have new information in some particular which can be surely found only in the NEW DIRECTORY

> Note: These figures are from repeated checks in numerous cities and do not vary 5% in any one year.

THAT IS WHY NEW DIRECTORIES MUST BE PUBLISHED EVERY YEAR.

MANCHESTER CLASSIFIED DIRECTORY

Rapid Contacts for Sales and Service

The Classification of Headings is made in accordance with a Standard List adopted by the Associaton of North American Directory Publishers to secure uniformity in all Directories, and to promote convenience of reference. The * denotes headings inserted by special contract or reference to general headings.

Abbreviations-B, Buckland; HP, Highland Park

TUNJO-DOES HE MAKE WISHES COME TRUE??

This is a Tunjo

It was believed by the Colombian Indians to have the power of making wishes come true. This design was taken from a Tunjo (the most powerful man) made of solid gold and was believed to have the double nature of spirit (with wings) and body (a scorpion). It may be seen in the Gold Museum in Bogota.

You could probably paint a picture of a Tunjo on a piece of plain paper, burlap or cloth, and hang it on your wall. Every morning when you rise, you could make a wish that business will get better.

Or You could be more positive and place an advertisement in the CITY DIRECTORY.

Act Now! Arrange for your Ad to appear in our next edition

ALPHABETICAL DIRECTORY

ITS PRACTICAL USE IS TO GIVE

Information—as to the complete name of each person over nineteen years of age, or any person employed.

Information—as to the occupation of each person over nineteen years of age, or any person employed.

Information—as to the address of each person over nineteen years of age, or any person employed.

Information-as to the nature and activities of firms and partnerships.

Information—as to names of each member of firms and partnerships.

Information—as to the names of corporations, their nature and activity.

Information—as to the correct spelling of each and every name.

Information—as to whether a person is a "householder" (h) or "resides with" (r)

Information—as to what is the wife's name of each married man.

Information—as to what was the husband's name of each widow.

Information—as to the location of removals from city.

Information—as to the age and date of death of persons appearing in the preceding directory.

Information—as to those seeking prominence and prestige by display type.

- Finally -

Our Ideal

"If it has a name and location - it's here"

TUNJO-DOES HE MAKE WISHES COME TRUE??

This is a Tunjo

It was believed by the Colombian Indians to have the power of making wishes come true. This design was taken from a Tunjo (the most powerful man) made of solid gold and was believed to have the double nature of spirit (with wings) and body (a scorpion). It may be seen in the Gold Museum in Bogota,

You could probably paint a picture of a Tunjo on a piece of plain paper, burlap or cloth, and hang it on your wall. Every morning when you rise, you could make a wish that business will get better.

Or You could be more positive and place an advertisement in the CITY DIRECTORY.

Lack of advertising... beneficial to some!

When Mark Twain was a young man, he was editor and publisher of a growing newspaper in a small Missouri town. One day he received a letter from one of his subscribers. The subscriber said that he had found a spider in that morning's edition of his paper. He wanted to know if this was an omen of good luck, or of bad luck. Mark Twain, a hustling space salesman as well as an editor, wrote to his customer:

Dear Sir:

Finding the spider in your newspaper yesterday morning was neither good luck or bad luck for you. The spider was merely looking over our paper to see which of the town's merchants is not advertising. He will then go to that store, spin his web across the door, and lead a life of undisturbed peace ever afterward.

STREET AND AVENUE GUIDE

A LISTING OF AREA STREETS AND AVENUES INCLUDING HOUSEHOLDS, OCCUPANTS OF OFFICE BUILDINGS AND OTHER BUSINESS PLACES WITH TELEPHONE NUMBERS, AND ZIP CODES

MANCHESTER STREET DIRECTORY

EXPLANATORY NOTES

The streets are arranged alphabetically with their descriptions, each description followed by a numerical arrangement of householders, places of business and street intersections. (Arranged by rotation where no numbers have been assigned.)

The abbreviation r between the street number and the name signifies "rear".

The word "vacant" after a number signifies that the house, office or store at that number was vacant when the canvass was made.

"Right odd" after street description indicates odd numbers on right side of street.

The symbol * following a householder's name indicates that information has been secured during the canvass that the house is owned by some member of the family, but as the publishers cannot and do not guarantee the correctness of the information furnished, nor the complete absence of mistakes, no responsibility for errors can be or is assumed, nor can the publishers furnish further information than that shown. information than that shown.

Just as you plan your production schedule, so you must plan your advertising. The Directory will give you the most for the least ...include the Directory in your advertising program.

use DIRECTORY Advertising

Common Sense

About City Directory Circulation

THE true value of advertising circulation is circulation consulted.

TO be exact by actual survey in twenty-four average American cities by actual count each city directory averaged three and one-half consultations for each business day.

TO be conservative we will eliminate the sixty Sundays and Holidays when no tests were made.

FOR every thousand directories sold there will be an average of three and one-half daily consultations for each book for three hundred and five days, therefore—

 $1000 \times 3^{1/2} \times 305 =$ 1,067,500

Consultations or Circulation Consulted

WARNING!

SECTION 28, COPYRIGHT LAW IN FORCE JULY 1, 1909.

That any person who willfully and for profit shall infringe any copyright secured by this act, or who shall knowingly or willfully aid or abet such infringement, shall be deemed guilty of a misdemeanor, and upon conviction thereof shall be punished by imprisonment for not exceeding one year, or by a fine of not less than one hundred dollars nor more than one thousand dollars, or both, in the discretion of the court.

Lack of advertising... beneficial to some!

When Mark Twain was a young man, he was editor and publisher of a growing newspaper in a small Missouri town. One day he received a letter from one of his subscribers. The subscriber said that he had found a spider in that morning's edition of his paper. He wanted to know if this was an omen of good luck, or of bad luck. Mark Twain, a hustling space salesman as well as an editor, wrote to his customer:

Dear Sir:

Finding the spider in your newspaper yesterday morning was neither good luck or bad luck for you. The spider was merely looking over our paper to see which of the town's merchants is not advertising. He will then go to that store, spin his web across the door, and lead a life of undisturbed peace ever afterward.

Act now! Arrange for your Ad to appear in our next edition

When You Want to Know:

- -where a person lives.
- -what his occupation is.
- -who lives at a certain number on a street.
- -where a street is located.
- -the correct spelling of a name.
- -the officers of a corporation.
- —the partners in a firm.
- —the solution to any of scores of problems that pop up unexpectedly to annoy and baffle you.
- —you can quickly find the answer in the City Directory.

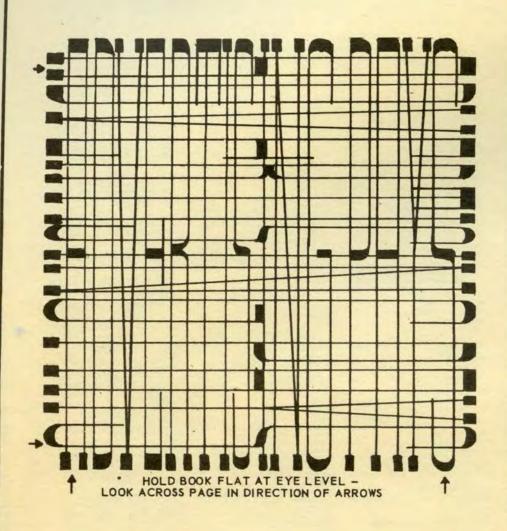

Just as you plan your production schedule, so you must plan your advertising. The Directory will give you the most for the least ...include the Directory in your advertising program.

When Men Want to Buy

They look in the DIRECTORY to find WHERE to buy. If you are in heavy type under the proper headings and EXPLAIN clearly in this section of the book what YOU sell, YOU get the business.
