I have often thought that the best way to define a man's character would be to seek out the particular mental or moral attitude in which, when it came upon him, he felt himself most deeply and intensely active and alive. At such moments there is a voice inside which speaks and says: "This is the real me!"

— William James

The mind of man is capable of anything — because everything is in it, all the past as well as all the future.

— Joseph Conrad

People are the common denominator of progress. So . . . no improvement is possible with unimproved people, and advance is certain when people are liberated and educated . . .

— John Kenneth Galbraith

I don't like work — no man does, but I like what is in work — the chance to find yourself. Your own reality — for yourself, not for others — what no other man can ever know.

— Joseph Conrad

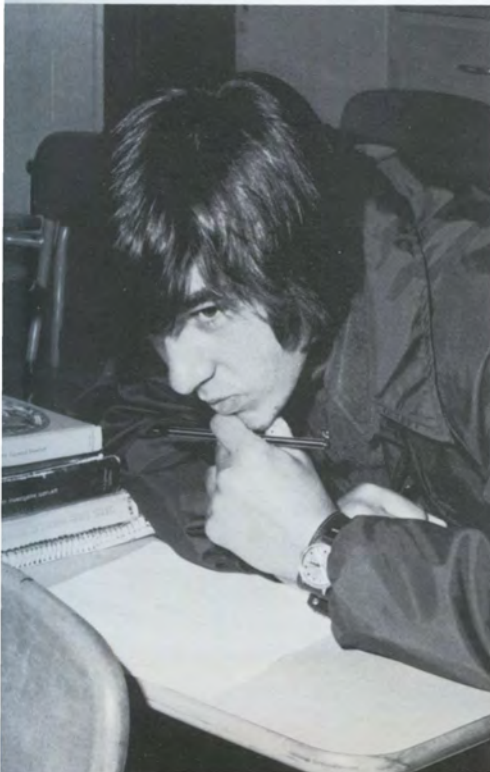

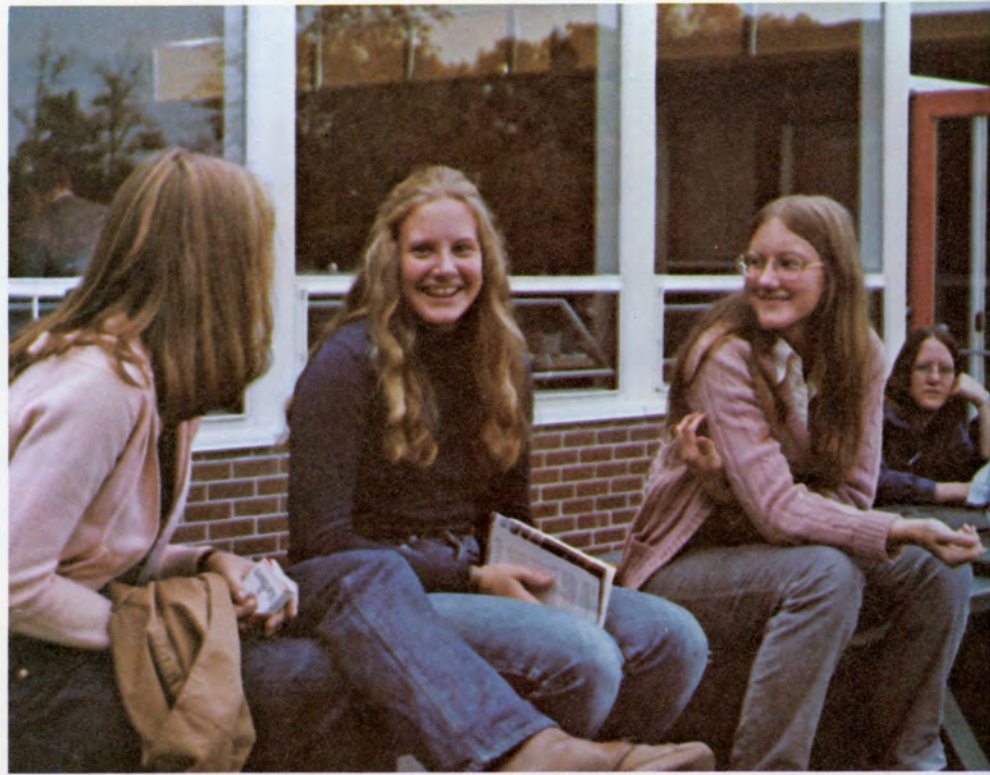

Never before have we had so little time
in which to do so much.

— F. D. R.

There is enough in the world for everyone to have plenty to live on happily and to be at peace with his neighbors.

— Harry S. Truman

AFS Exchange Students

Pages and pages could be written on my AFS year here — on what I've learned, experienced and realized, on the people I've met and the friends I've made. But there is not enough room in a paragraph like this to express in words what this year really has meant to me, how it has formed and changed me and my views. My AFS year in Manchester is over by returning to Norway in July, but the experiences, the new thoughts and ideas I've gotten throughout the year will stay with me much longer than the year itself — they are within me and part of me.

An AFS year is a great and very, very special experience. Thanks to the AFS Club, to MHS and to all of my friends for a fantastic year.

Birgitte Svendsen — Norway

The most marvelous experience of my life was that of coming to Manchester, where I have had as many happy moments as sad ones. And above all, I have learned to appreciate what I have in my country and what it really means to me.

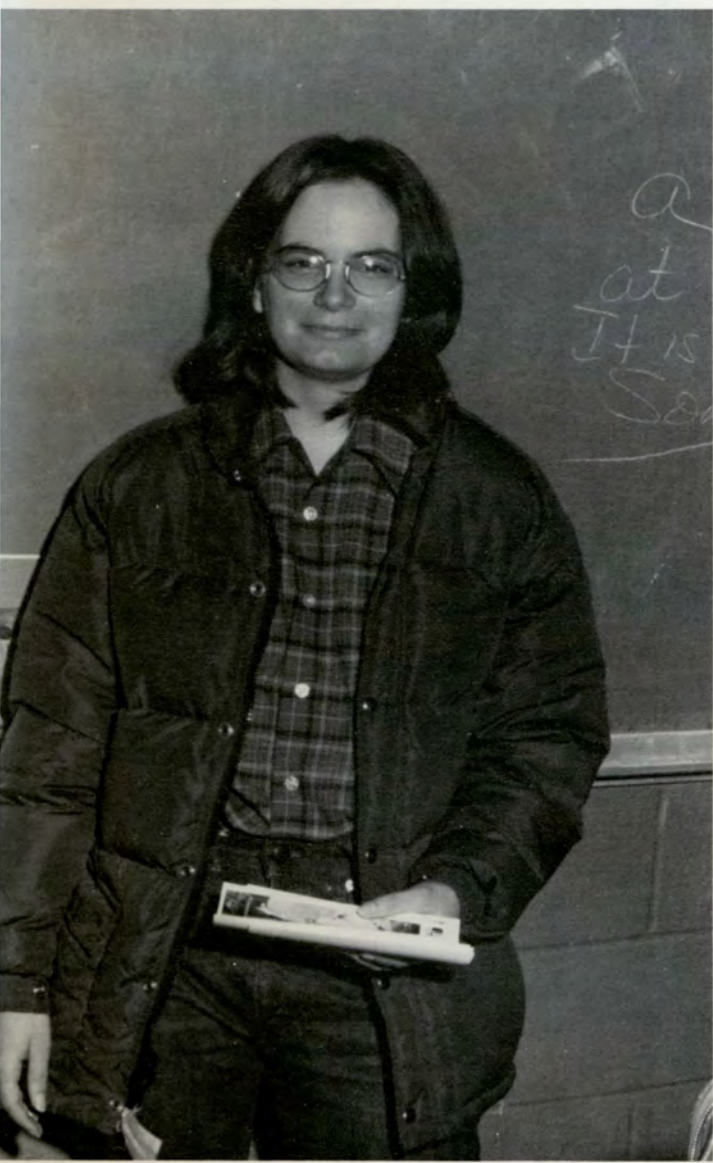

I will never forget this year, and will always remember with affection my American Family, who made me feel at home, my friends, MHS and AFS which gave me this opportunity.

If you ever decide to go to Guatemala, don't forget that you have a friend there who will always make you welcome.

The address is:
18 Calle 9-21 Zona 10
Guatemala Ciudad

Living in Japan for three months was in itself an amazing experience, but the most important part of my summer is still with me and happening now. Remembering the care and concern of my Japanese family and the good times we had, trying to eat tomatoes with chopsticks, realizing after three days of frenzied optimism that I was alone, 6,000 miles from home and I couldn't understand a word, cucumber sandwiches, so many inexpressible good feelings and memories. I can't say exactly what I've learned from my experience, but more important is the realization that people want pretty much the same things.

— Nancy Schaffer

Youth for Understanding

What a great time I had during my year at MHS as an exchange student with the organization Youth for Understanding. When I now look back to my first days at school last September: how lonely I felt, not used to the language yet and also lost in this huge building! It seems strange now. I got so accustomed to both, that I have problems with my German now, and the high school in my home town will be quite different again, too, with its 316 students.

But the friends I found here after a short time helped me a great deal with my first small problems and to get to know my way around. With them I also had a lot of fun outside of school, and I am sure that I am going to miss them very much as well as the "two families" I stayed with this year: the Gass' and the Ahlness'.

In choosing my courses I tried to get away with the easiest and most interesting ones (who wants to work hard in his senior year?!). From the big variety I especially enjoyed Patterns of Human Behavior, American Folklore and Foods.

The clubs I participated in I enjoyed very much, too: Sock'n' Buskin and AFS. In both I met lots of interesting people and had a very good time with them.

I am really glad I took this opportunity to become an exchange student, because during my twelve months I suddenly realized that only by going away from home and by getting to know other people and cultures, different from your own, are you able to develop your personality, become independent and find your own lifestyle, or simply "grow-up".

I wish everybody could have this great experience to understand my feelings. Never will I forget my one year at MHS, and I already look forward to coming back.

I have had many valuable experiences here in Manchester, have made many new friends and have enjoyed learning about the American teenager's life at home and at school. I enjoyed participating in school activities and learning about the History and people of the U.S.
