## *In Memoriam —*

The Somanhis Yearbook Staff would like to dedicate the 1977 yearbook to the memory of Mrs. Lynne M. Foran. Mrs. Foran's kind smile and warm personality was ever present throughout the day. As a teacher, her readiness to help her students understand the Spanish language could only be surpassed by her everlasting patience. Mrs. Foran's sincere devotion to her students and friends will always be remembered and appreciated.

Sleepy Feet

Isn't it  
typical that  
when you're  
mentally exhausted,  
your foot  
falls asleep?

— Alan Girelli

I have not enough strength  
to push or pull you  
so walk beside me  
and give me your hand

I have not enough strength  
to live without you  
so always be there  
whenever you can

My dreams, I know  
will never come true  
unless you always  
say there's a chance

So stay around, friend,  
to give me courage  
tell me a story  
or do me a dance

Do anything, friend,  
that you think is needed  
to help me believe  
the things that you say

And, do anything, friend,  
you think may be helpful  
to convince me to start  
and go through with each day

Doreen Downham

Serenity

One day as I was walking,  
Down by a famous lane  
I met a handsome prophet,  
And I never learned his name.

He asked where I was going,  
I said to search my mind,  
He said to go and think in peace,  
And tell him what I find.

I waded in the water,  
And drew pictures in the sand,  
My heart felt filled with happiness,  
As I gazed upon the land.

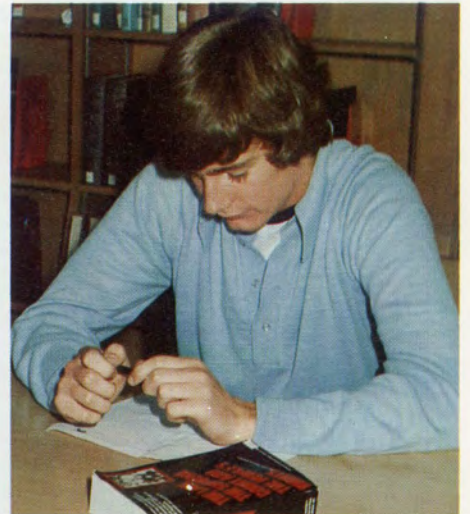

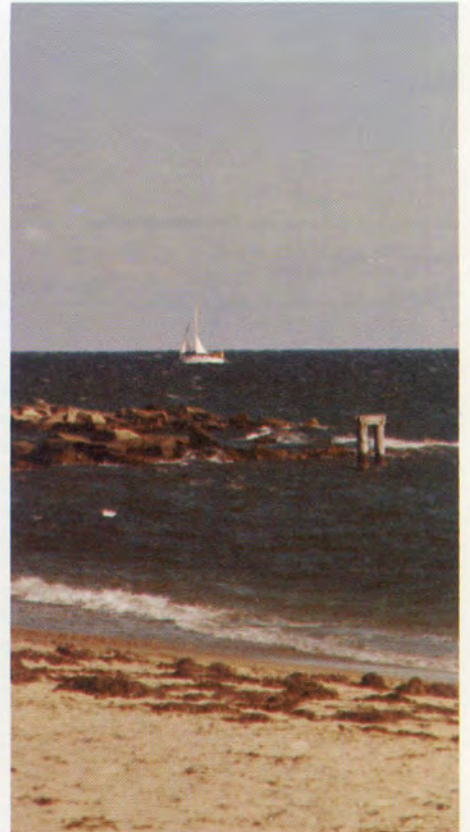

The sun was bright and warm,  
As the horizon formed a line,  
I threw rocks upon the water,  
And watched each ripple shine.

I then met the prophet once again,  
And he asked me what I found,  
I said love and joy in nature,  
And true freedom all around.

Sue Patten

Sensitivity

Though I am among friends,  
I am alone,  
For you have not lived what I have lived,  
You cannot see what I see.  
I am alone.

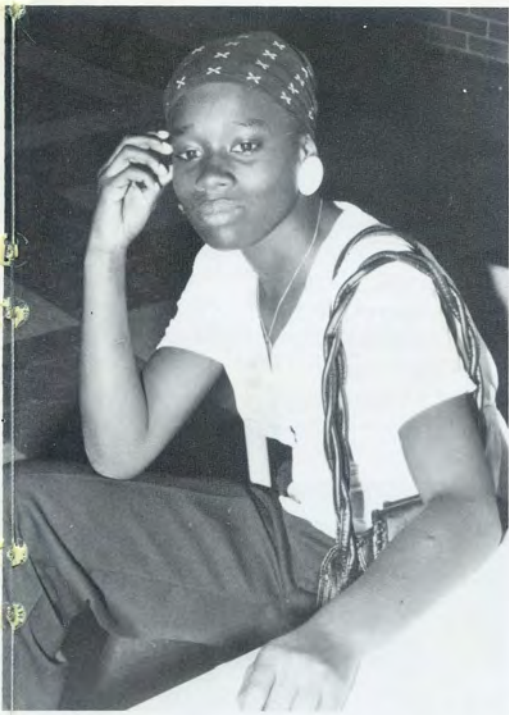

Be careful when you speak,  
For words are delicate tools  
And I am like a sensitive plant whose leaves  
curl up when touched.  
You may sever parts of me without even  
knowing it,  
For you have not lived what I have lived.

Though I am among friends  
I am alone.  
I have cried for the things that could never  
be,  
Cried for the pain you can never see.  
For you have not lived what I have lived  
And sympathy is such a shallow thing.

I am composed of intricate fibers of  
sensitivity  
I shall reach out with caution  
For you may not see as I see.  
I have the power to love, to feel  
Be careful not to hurt me,  
For you cannot see as I see.

Laura A. Smith

Light filters out from beneath the door  
The keyhole gives out a shallow view  
superficial colors, of manufactured hue.  
To penetrate more deeply a key must be  
turned,  
a delicate step, not easily learned.  
The lock now undone, the door may swing  
wide,  
might spill some light on vague shadows  
inside.  
The surface facade, under prodding may  
yield,  
but the full depth of the man is never  
revealed.

Julie Hodson

Thoughts on the Last Night  
of the Summer

Going to bed early for a change,  
As if an extra hour or so  
Would magically erase  
All the hours of non sleep  
Lying in bed thinking  
Of all the things  
I never got around to

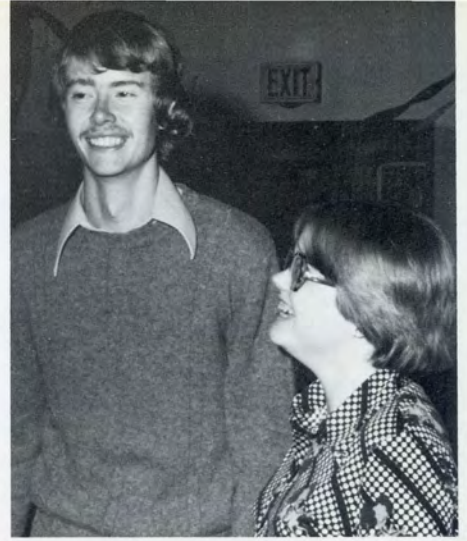

Trying to remember  
Which teachers  
My friends said  
Were the good ones  
And if I got any  
Can't help feeling excited  
Even though  
I hate the idea  
Of homework, last-minute papers  
And the 6:30 alarm clock,  
Starting all over again.  
Summer was getting boring, anyhow

### Friendship Tragedy

The end to a  
Friendship  
is probably the  
most tragic death.  
Then you'll look  
back years later  
and say  
"I remember  
How did it  
ever slip away?"

I can appear to be alone  
Yet I am not lonely  
but deep in thought.  
As long as I have friends  
I am never really alone.

I can appear to be solemn  
Yet I am not sad  
but remembering.  
As long as I have had good times  
the bad cannot over-take me.

I can appear to be silent  
Yet I am not mute  
but pondering others' words.  
As long as others speak  
I shall listen.

The striving for self-improvement and a contributing team effort made this year's squad of approximately thirty girls, successful. Many close meets reflected the team's weaknesses in areas such as the field events. To combat this, the girls entered more than one competition, and many runners branched into javelin, discus, shot put or jumping. Unity and progress are key words in the description of this year's girls' track. The entire team came out to support Lori Veal (2 mile), Liz Barrett (880), Linda Maher (440) and the relay team in their individual efforts at the state sectionals.

The 1976 Girls' Tennis Squad didn't have a winning record (2-12), but that's not to say they weren't a winning team. Co-captained by Sherrie Hopperstead and Inara Punga, the girls remained undefeated in team spirit and willingness to work. Belinda Welti led the tribe in singles with a 5-12 win-loss record, while Laura Burnett and Cindy Formica were tops in doubles, compiling four wins to ten losses for the season. Pat McKee was voted the team's most valuable player, and most improved for the squad was Laura Burnett. Diligent, devoted, and coached by a persistent fighter, Miss Priscilla Mally, all the girls deserve praise for their dogged rallies against far more experienced teams.

Last year was one of growth for the Boys' Tennis Team. Despite the large number of underclassmen save senior captain Dave Maloney Manchester still posted a respectable 6-7 record. Filling the top three singles positions were juniors Jon Peck, Phil Valentine and sophomore Jim Kennedy. The number four spot was ably manned by either Dan Wilson, Dale Lundy or Rick Marshall. As the season progressed, the first and second doubles teams grew more concrete. Peck and Valentine held the number one spot, with Tom Donovan and Mark Caoulette playing number two. These two showed increasing promise throughout the season. The third team usually consisted of Maloney along with either Wilson or Marshall. The season's awards went to Phil Valentine for the most improved player and Dave Maloney for his dedication. Earlier in the season, Jon Peck had been named to the CCIL squad. Overall, the team, coached by Dave Flanagan, developed into a poised group and shows much promise for the 1977 squad.

1976 recorded one of the most successful seasons in recent years for an MHS Softball team. A good hitting club that scored many runs, the team finished second in the CCIL. Doreen Downham, finishing with 9 wins and 4 losses, pitched a no-hitter against East Catholic. Mary Cochran, third base-pitcher completed the season with 3 wins and 1 loss. The outstanding hitters were Janice Dahm (.468), Kathy Strand .431), and Doreen Downham (.411)

A new system provided more goals for this year's Hockey Squad, but they were not enough to pull the girls through with a winning season (4-2-7). Some vital flaws in the team's defense proved costly but co-captains Rachel Rosen and Colleen Shane led the team in matches that were both tough and exciting nevertheless. An 8-6-2 record meant victory once again this year for the varsity soccer tribe, but for winning Coach Danielson, a 30 year veteran, and assistant Coach Doug Pearson, the season proved disappointing. More scoring punch might have turned those 1-goal loss decisions into added victories. Outstanding players for the second round CCIL warriors were Darrell Hoocy and Bob Nurmi, who were both named to the second CCIL team, and squad-captain Matt Walsh, who received honorable mention.

1976 was an outstanding year in J V Soccer at MHS. Coached by Mr McCarthy and comprised almost entirely of sophomores, the team set a new school record by tallying 11 wins to 1 loss. The Manchester High Boys Basketball Team enjoyed a winning season again this year with a 13-5 record. Although they shared the CCIL crown, this year marks the second year of top ranking in the CCIL league. The Indians, with exceptional performances and much assistance from every member of this junior-senior team, played many fine games. These talented players will have a promising and rewarding future in Basketball in the years to come.

# AFS

I had the fantastic opportunity of spending the summer of 1976 in Sri Lanka as an AFS Exchange Student. But the experience did not end with the summer; it continues to affect my life and thought now that I am back. I realize that there is something more than Manchester, than the United States. Even though I was halfway around the world, I discovered that people are basically the same. The purpose of international exchange is to promote understanding; this goal can be achieved not only through noting the differences of various cultures, but also the similarities. I feel that I have a better grasp of the world around me it is something that I don't want to relinquish. The AFS experience has brought many changes to my life. It has caused me to reflect on my beliefs and question my values. To this extent, I hope that my summer will serve as a constant reminder of my Sri Lankan friends and their views so that I will not forget that we live in a world community

Ayubowan,  
Susan Launi

Many people love to travel, go around a country visit all that has to be visited and watch "how strange people are." Afterwards they think they have enlarged their vision of the world and they have indeed. What about an AFS experience then? You live in a strange country where "strange" people do "strange" things and even better, you do these same things More than the simple experience of accepting "strange" things, my AFS experience has taught me that nothing is really strange, that by living everyday life you can understand people and accept them better

It's only with real fear that I can think about what my life would have been without my experience here. Of course, there are sad moments, but so many people have taken a new place in my heart that I've got here a new trust for people and for what they can do. Even if we are sometimes a little different, I have realized that our goals are pretty much the same and that we can work together

Thank you, friends. Even back in Belgium, you'll continue to live in my actions and thoughts, thank you to my parents who taught me a lot, to the AFS Chapter and Club. If you ever come to Belgium, come see me and we'll have a good time.

Hi. My name is Pentti Myllynen and I'm a YFU exchange student from Finland. Here in Manchester I live with Mr and Mrs. Christino. The family includes my little sister Cara and my brother Mike who is a sophomore at MHS. I'm seventeen years old and this year I was a senior at MHS.

During the five months I have been in the United States, I have been enjoying myself. When I left Finland, I didn't have any idea what that big nation behind the Atlantic Ocean would be like. First I was very surprised because of the great amount of small houses. I was expecting more apartments. The weather here was a big change for me. In Finland the summertime weather is not as hot and humid. Just before school started my family visited a Rhode Island beach which is just a lovely place. I hope that I can visit the beach again before I leave in July.

MHS was one experience here. It's much bigger than the schools I'm used to, so I was more than lost the first week. I like MHS because I can choose my classes. In Finland students can't choose their classes every year. One thing I have found very nice is the way Americans spend their free time. Basketball games are especially nice. In Finland we don't have school teams.

I think this year is going to be one of my greatest years. For that, I have to thank my host family, all my teachers, friends, and especially YFU that gave me this great opportunity to come to the United States.

Pentti Myllynen

My name is Elena Arce (Betty). I'm from Paraguay, South America. I am sixteen years old and I am an exchange student of YFU. I have a very good impression of MHS, especially of the teachers who made it much easier for me to understand the classes. I also enjoyed very much all the students who have tried to help me and make my year in school easier and happier.

The biggest problem for an exchange student is language, but after about two or three months it became easy and I think my English has improved.

I had to learn some very important things, not only in school, but also about the style of American life. Being an exchange student is difficult, but if you have friends who always help you, everything becomes better. Now I can say that I have had a very good year and a wonderful experience.

Betty

In the summer of '76 I went to Brasil as an AFS exchange student. I spent about ten weeks in Niteroi, a city of about 400,000 located right across the bay from Rio de Janeiro. My Brazilian family consisted of a mother, father and four sisters. I'm the only son of the family I have no American sisters so it was an enlightening experience having sisters ranging in age from 11 18 years. I now envy and sympathize with guys who have sisters.

My short stay in Brasil enabled me to learn only a little Portuguese, but I managed to communicate and socialize without trouble. It's really amazing how fast you can learn to speak a language when you really have to. Having seen and lived in another culture has helped make me more sensitive to the way people here in the States feel and how their opinions are formed.

Adjusting to Brazilian life and attitudes was difficult. I found it hard, at first, to get used to seeing men carrying shoulder bags. I also found it hard to conform to the Latin macho, which is a very distinct cultural trait of Brasil. Re-adjusting to American ways of thinking has been even harder. Sometimes I catch my Brazilian machismo coming through, or get laughed at for carrying my own shoulder bag, but everything works itself out.

Going abroad is a great deal in lots of ways. I'd never even been on a plane before I went to Brasil, but now that I've taveled I hope never to stop going places. I would heartily recommend that anyone with some imagination and curiosity do some traveling. You'll love it.

The Spanish Club is open to all students who are interested in the Spanish culture. This year the club sponsored a variety of activities. A Spanish Christmas Party was held in December. This consisted of homemade tacos and a pinata. In May the club's interests led them to New York to the Repertory Theatre where the members viewed an excellent dance performance narrated in Spanish as well as English. Guest speakers from Ecuador and Paraguay were also included on the agenda. Thanks to Miss Esposito it has been a great year.

## *Business Work Experience*

The Business Work Experience Program was started in September of 1976 to provide an opportunity for seniors to gain practical work experience in the office. The student is supervised by a teacher-coordinator and works an average of 15-20 hours per week for pay. Students must be enrolled in at least one of the following business courses: Business Machines, Legal Typing, Shorthand 2, Executive Typing, Typing 2, Medical Typing, Transcription, Typing 3, and Accounting 2. During the school year the students have performed the following jobs while participating in this program: Legal Secretary, Receptionist, File Clerk, Typist, Key punch Operator.

This year's Outing Club organized several activities. In September, the club backpacked a trail to the top of Mt. Washington, New Hampshire. October's trip was less vigorous, as the club camped at Nickerson State Park on Cape Cod. On November 21, the group sponsored a hike in the Bear Mt. region of Connecticut. Taking advantage of the fine winter weather in January the club went ski touring in Connecticut. Plans for the spring included camping at Camel's Hump, backpacking and canoeing in May, and a bicycling trip in June. Ably led by Mr Glaeser and Miss Kirby the Outing Club had a very active year.

## "A Better Way"

Moderato maestoso

Kevin Marceau

Handwritten musical score for the song "A Better Way". The score is written on four staves of music, each with a treble clef and a key signature of two sharps (F# and C#). The time signature is 4/4. The tempo is marked "Moderato maestoso". The lyrics are written below the notes.

Man-y years of work and learn-ing grow-ing with each pass-ing day  
Our al-ma ma-ter now we're leav-ing to try and find a bet-ter way  
friends were leav-ing we'll re-mem-ber while we're search-ing for the right  
we'll re-call our al-ma ma-ter and Man-ches-ter High School's red and white

Intuition

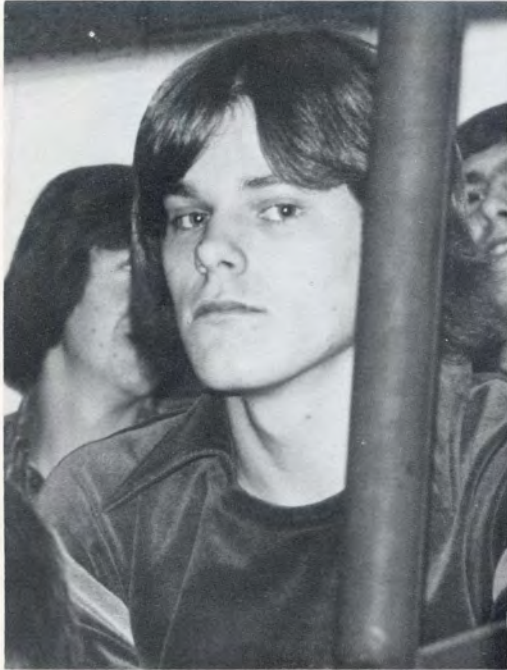

I knew you were my kind of person  
The moment you smiled back  
Then I got to know you and discovered  
That you were not quite what you wanted the  
world to think of you

But there is something within me  
That will always disagree entirely  
With whatever I discover you to be  
The understanding of love that tells me  
There's a sensitive person under that ego  
Waiting

Ann Kibbie

Time takes away the things I care for  
But replaces them with memories to cherish  
forever
