The Class of 1986

TO: Readers of the 1986 SOMANIS
FROM: Jacob Ludes, III, Principal
RE: The Class of 1986

It is sincerely a pleasure for me to recommend the Class of 1986 to you. I have known the members of this class for at least three years and, in some instances, substantially longer.

The faculty and administration believe that they have mastered the learnings necessary for successful performance in college, jobs, leisure time activities, and membership in families as well as the larger community.

They have been an active class. In addition to their studies, they participated in twenty-two interscholastic sports and twenty-six other organized activities. They have won team and individual championships and always comported themselves as sportsmen and sportswomen. We are enormously proud of them and the way they have represented this high school.

They have published a weekly newspaper, a literary magazine, and this year-book. They have performed in plays and musicals. They have entered academic competitions and distinguished themselves. They have traveled, and word has returned to us that they are an exceptional group of mature, sensitive, and polite young people.

As a group, I know the Class of 1986 to be well prepared, competent, hard working, sensitive, goal oriented, and personable. They are a likable bunch and have clearly demonstrated their "people skills." They will impress you with their charm, wit, sense of humor, insight, maturity, and common sense.

I know the Class of 1986 enjoys an enviable reputation with the student body and throughout the community. They have made the most of their high school experience. They have been serious about their studies and committed to their school. We will miss them.

We recommend them to you enthusiastically and without reservation.
