Marlow's Department Store at 867 Main St. has become one of the first stores in the area to stock what George Marlow, president, terms a "revolutionary" new line of popularly priced dinnerware. Known as Corelle Livingware, it is manufactured by the Corning Glass Works of what is claimed to be a practically indestructible ceramic, developed

as a byproduct of jet age research. Here Mrs. Harriett Wyrus of Marlow's demonstrated the toughness of Corelle by banging a cup and dish together without a scratch. The dinnerware is unconditionally guaranteed against chipping or breaking for two years. (Herald photo by Buceivicius)
